Minton, 2010-11-15 The struggle to remove the stigma of sickness surrounding same sex love has a long history In 1973 the American Psychiatric Association removed homosexuality from its diagnostic classification of mental illness but the groundwork for this pivotal decision was laid decades earlier In this new study Henry L Minton looks back at the struggle of the American gay and lesbian activists who chose scientific research as a path for advancing homosexual rights He traces the history of gay and lesbian emancipatory research from its early beginnings in the late nineteenth century to its role in challenging the illness model in the 1970s By examining archival sources and unpublished manuscripts Minton reveals the substantial accomplishments made by key researchers and relates their life stories He also considers the contributions of mainstream sexologists such as Alfred C Kinsey and Evelyn Hooker who supported the cause of homosexual rights through the advancement of scientific knowledge By uncovering this hidden chapter in the story of gay liberation *Departing from Deviance* makes an important contribution to both the history of science and the history of sexuality **Regulating homosexuality in Soviet Russia, 1956-91** Rustam

Alexander,2021-05-25 This ground breaking book challenges the widespread view that sex and homosexuality were unmentionable in the USSR The Khrushchev and Brezhnev eras 1956 82 have remained obscure and unexplored from this perspective Drawing on previously undiscovered sources Alexander fills in this critical gap The book reveals that from 1956 to 1991 doctors educators jurists and police officers discussed homosexuality At the heart of discussions were questions which directly affected the lives of homosexual people in the USSR Was homosexuality a crime disease or a normal variant of human sexuality Should lesbianism be criminalised Could sex education prevent homosexuality What role did the GULAG and prisons play in homosexuality across the USSR These discussions often had practical implications doctors designed and offered medical treatments for homosexuality in hospitals and procedures and medications were also used in prisons
