Secondary Education in Modern India (1800 - 2022) Dr V.B. Shastry, 2023-03-24 Secondary Education in Modern India 1800 2022 is a rare treatise of educational research based on authentic primary data collected directly from archives. It spans two centuries and two decades of development of Secondary Education in India from its faint faltering beginnings to the nationwide obsession with it today. It covers the gradual evolution of secondary education in India presenting in detail the changing policies and programs, reports of different National Education Commissions and the structural changes over a vast time frame. It is an invaluable reference book for students of education and those engaged in researching the development of education in India. Handbook of Medical Education, 1984 **Annual Report** National Council of Educational Research and Training (India), 2002 *Innovative Strategies for Accelerated Human Resources Development in South Asia* Asian Development Bank, 2017-12-01 Significant investments have been made to modernize and improve the provision of education services. Strengthening teacher development has been a key component of these investments. However, programs on teacher development have provided mixed results. This report adopts a 360 degree perspective to review the current status of teacher development, demand and supply and performance management in five countries from the South Asia region including Bangladesh, Nepal and Sri Lanka, with limited reference to Bhutan and Maldives. It probes beyond teacher in-service training and teacher job conditions and investigates systemic and structural issues. Continued investment may not be the best option to improve the quality and supply of teachers and so the challenge is how to leverage resources to meet the demand. The Encyclopaedia and Dictionary of Education Foster Watson, 1921 *The Admission and Placement of Students from Bangladesh, India, Pakistan, Sri Lanka* Leo J. Sweeney, Valerie Woolston, 1986 **The Foundation Center Source Book Profiles**, 1984 Lokrajya, 1981 People's Raj, 1981 **Teacher's World**, 1961-10 *Teacher Quality and Education Policy in India* Preeti Kumar, Alexander W. Wiseman, 2021-03-31 By drawing on quantitative data and qualitative analyses of five major national education policies implemented in India over the last 15 years, this comprehensive volume explores their impact on teacher quality and perceived effectiveness, explaining how this relates to variations in student performance. Responding to a national agenda to increase the quality of the Indian teacher workforce, *Teacher Quality and Education Policy in India* critically questions the application of human capital theory to Indian education policy. Chapters provide in-depth and strategically structured analyses of five national policies, including the recently approved National Education Policy (NEP) 2020, to see how Indian policymakers use teacher quality as a driver and measurement of education and national economic development. Ultimately, the text offers evidence-based policy recommendations to improve teacher quality in India, suggesting that while all five policies have contributed significant frameworks and recommendations for teacher quality reform, they have failed to move beyond a symbolic function. Given its rigorous methodological approach, this book will be a valuable addition to the under-researched question of education policymaking in postcolonial contexts. It will be an indispensable resource not only for scholars working on policymaking in the Indian context but also for those working at the
