The Pursuit of Pleasure Lionel Tiger,2017-07-12

Pleasure is biologically desirable and good for physical and mental health In The Pursuit of Pleasure Lionel Tiger explores this aspect of human nature by focusing on the origins and forms of pleasure Medical science has perfected a host of often astonishingly impressive methods for preventing alleviating or recovering from pain Its opposite pleasure has not had such a well funded and fully justified constituency In fact those committed to the understanding and pursuit of pleasure are rarely accorded respect and a sense of significance People have objected to the notion of pleasure for a variety of reasons The most complex derive from religious convictions that the most morally admirable human life is marked by abstemiousness suffering even martyrdom There is also a corresponding fear that people may pursue pleasure too avidly and with too strong a sense of entitlement and the world s work will not get done But just as there have been suspicions of the dangers of pleasure there have also been its supporters who assert its vital and joyful centrality to human experience The Pursuit of Pleasure favors an agnostic approach borrowed from natural science In lively witty and eminently readable prose Tiger identifies major forms of pleasure and explores their variations now and in the past Pleasure says Tiger is not a luxury but an evolutionary entitlement that deserves to be taken seriously As we acknowledge our need for enjoyment we understand the need to establish balance in our lives our need for the pursuit of pleasure

Fred Webb once commented on his marriage by saying Irene and I had the typical teenage marriage that wasn't supposed to last six months. I guess the secret is that out of the past forty years I have been away about thirty five of them. And away from home he has been first as a radio operator in the remote North then as a lumberjack and later yet as a sailor. Eventually he became a full time guide traveling all over the Arctic guiding for the great game of the North caribou moose polar bear muskox and grizzly.
