

OFFICE 2010 - THE REVIEW

When you gather your great-great-grandchildren around the 12-gigapixel video wall to show them what 2010 was like, what will be their most likely reaction? Will you be apologetically explaining that camera-phones weren't very good back then? Or will you tell them, actually, that was taken with a proper camera – it was cheap but it was good enough for Facebook?

It's time to think of future generations and get yourself a decent camera. We've lived up 15 of the most desirable compacts and put them through some grueling tests to find out which ones are up for the long haul. We're looking for cameras that don't just record vague outlines of loved ones' features, but ones that capture the subtlest expressions and twitches of the eye. We want dramatic sunsets reflecting off the rippling ocean, not a burnt-out orange glare floating on a sea of noise.

While we're at it, we may as well find something that you'll enjoy using today. Many of these cameras come with novel control systems, be it screens that let you focus anywhere in the frame simply by touching, or swatches of
