Gerrits, 2023-06-22 Each year millions of people are displaced from their homes and lands While international environmental
and social performance standards on land access and involuntary resettlement exist no framework supporting livelihood
restoration has been developed This book provides a framework that will help improve practice for those who are involved in
resettlement projects and crucially improve the outcomes for the resettlement affected households and communities
Evidence from the implementation of public and private sector led resettlement projects indicates that livelihood restoration
is a persistent shortcoming if not failure across these projects This book addresses this issue by re characterising the
livelihood restoration objective as livelihood re establishment and development and proposes a framework for the entire
resettlement process that puts livelihood considerations first The framework enables proactive identification of the potential
livelihood challenges associated with each step of the resettlement process design planning execution monitoring and

evaluation as well as the opportunities that resettlement project development and induced economic growth create This book is essential reading for experts in social impact assessment resettlement specialists planners administrators non governmental and civil society organisations and students of development studies and social policy *Economic Opportunity Act Amendments of 1967* United States.
