By a Commoner** COMMONER., 1819 **The Red Room** August Strindberg, - Annandreas, 2023-06-14 I'll tell you what Ygberg I believe one has to be very unscrupulous if one wants to get on in the world That's how The Red Room could be summarised through one of its sentences Through a number of cultural workers Strindberg asks the question of how life should be lived As a young

person you can pretend to be an ardent idealist as an older somewhat sober person you can come to realise that what you from the beginning thought to be idealistic may not really be Through its straightforward language The Red Room 1879 is often called the first modern novel in Swedish It constitutes a representation of Stockholm in the 1870s and is known for its depictions of the urban environment as well as its satire The book is an attempt to stand by the lower classes by humorously attacking the hypocrisy of the higher classes The Red Room was described as dirt by contemporary critics but it was an immediate success This edition of The Red Room constitutes the first novel in the cluster text style which could be 20 percent better than ordinary texts and is intended to function as a kind of survey for how we look at text reading and book design This book in Swedish was made as an entry for Svensk bokkonst which every year rewards good examples of book design The winners get to participate in Stiftung Buchkunst's Best Book Design from all over the World which in German is called Schönte Bücher aus aller Welt This difference captures an important gap Book design has long been about designing beautiful books Now we'll see how Svensk bokkonst and possibly Stiftung Buchkunst see this What do you think Should we read cluster texts You will get an answer to that question by reading this edition of The Red Room PLEASE NOTE that the text in this book i.e. cluster text cannot be reflowed and therefore needs to be read on tablets screens at least 13 centimetres wide which can handle line lengths of 95 characters i.e. smaller screens are not suitable
