Baccalaureate programs and asks how advanced studies can be significantly improved in general. It also examines two of the core issues surrounding these programs: they can have a profound impact on other components of the education system and participation in the programs has become key to admission at selective institutions of higher education. By looking at what could enhance the quality of high school advanced study programs as well as what precedes and comes after these programs, this report provides teachers, parents, curriculum developers, administrators, college science and mathematics faculty, and the educational research community with a detailed assessment that can be used to guide change within advanced study programs.

The Ultimate Student's Guide to Scientific Research Samuel J. S. Rubin, Nir Qvit, 2024-09-13. A scientific career is a long and winding journey. Many factors assemble to determine the trajectory and products of scientific inquiry. This book addresses the scientific career path comprehensively, ranging from how to build a strong foundational knowledge and skill base to training programs, composing winning research proposals and grants, conducting excellent research, writing papers and reports, collaborative research programs, bridging academia and industry, career advancement, and more. Guides where how and what to study in undergraduate, post baccalaureate, graduate, and post graduate training programs and addresses important crossroads throughout the continuum of training and beyond. Highlights best practices, techniques, and nuances for creating a successful scientific career. Provides critical insights for traversing major milestones and decision points in a scientific career and serves as a resource for reference throughout stages of advancement. Discusses alternative career opportunities for individuals trained in sciences. Offers students, researchers, and other scientists across all stages of their careers with accessible, engaging, and useful insider tips.

Introducing the IB Diploma Programme Marc Abrioux, Jill Rutherford, 2013-02-14. Schools wishing to introduce the IB diploma programme are faced with major investment in terms of time, effort, and money in order to become authorised. This manual is a resource for schools already offering the diploma as well as for prospective diploma schools.

Transforming America's Schools John Murphy, Jeffrey Schiller, 1995. The main theme of this text is that school improvement is difficult but with appropriate knowledge and firm leadership, school administrators can make the difference. It should be of interest to principals, students in education administration, and concerned members of the public.
