Teaching Mathematics 3-5 Sue Gifford, 2005-08-16 With freshness humour and originality Sue Gifford demonstrates the interactive strategies that are required to teach mathematics to young children The text is both refreshingly free from conventional wisdom and solidly grounded in recent research on learning and teaching early mathematics At the same time it is unfailing in its accuracy in uncovering children's own humour and instinct for subverting teacherly overtures Given the demonstrated lack of spontaneous mathematics in early childhood setting this assembled collage of children's own observations activities and comments is in itself a work of art Professor Carol Aubrey Institute of Education University of Warwick UK What are the most important aspects of mathematics for young children to learn How do children learn mathematics How can adults best teach mathematics to children so young The book informs practitioners students and parents about how three to five year olds learn mathematics and shows them how best to develop enjoyable mathematical learning in early years settings The book includes a summary of relevant research and considers issues relating to current practice This book Establishes principles for teaching mathematics to young children Takes into account the way children learn including social emotional physical and cognitive aspects Helps practitioners find the middle ground between not initiating enough mathematical activity and being too directive Suggests principles and frameworks for planning and assessment The book places particular emphasis on adult initiated number focused activities and playful challenging and sensitive teaching strategies to engage younger children The strategies are based on research and work with

practitioners and are illustrated by children's own responses such as making number jokes. It covers key areas of mathematics including number, shape and space, measures and problem solving with appropriate expectations and common difficulties as well as suggested activities. Essential reading for those teaching or preparing to teach mathematics to young children as well as parents interested in the mathematical education of their children.

Essentials of Literacy from 0-7 Tina Bruce, Jenny Spratt, 2011-03-17 Children flourish in their development and learning when practitioners and parents work together. Children's development and learning are further enhanced when interconnected knowledge and understanding work together. In this new edition, the authors guide readers in understanding of child development. They highlight the need for those who work with young children to become reflective practitioners. Through a focus on the introduction of nursery rhymes, finger rhymes, action songs and poetry cards, the authors provide a gentle, child-friendly way to develop literacy. 0-7 Thoroughly revised and updated, this book includes case studies and examples, discussion of the primary framework, inclusion of schools as an educational setting, age-appropriate activities, further reading suggestions at the end of each chapter. This book is useful for teachers, practitioners, teaching assistants and childminders and for anyone working with children from birth to seven years in nursery and primary schools, children's centres, foundation units and at home. Tina Bruce is an Honorary Visiting Professor in Early Childhood at Roehampton University. Jenny Spratt is Head of EYFS and Children's Centre Services for Peterborough Local Authority.

Understanding and Teaching Primary Mathematics Tony Cotton, 2014-04-29 How would you teach the concept of odd and even numbers to a child? What is the probability of throwing a three on a six-sided die? How could you help a child who is confusing ratio and proportion? By seamlessly combining subject knowledge and pedagogy, the second edition of *Understanding and Teaching Primary Mathematics* will not only build your own confidence in mathematics but also equip you with the curriculum understanding and pedagogical know-how to excel at teaching maths to children of any age. Written in a clear and accessible way, the book guides you through the fundamental ideas which are at the heart of teaching and learning maths, with special focus on observation and assessment of primary and early years children. Hallmark features: Links to the classroom and research are provided throughout to help you relate educational theory to your own teaching practice. Portfolio and audit tasks allow you to assess your own subject knowledge and build up a portfolio of evidence to gain Qualified Teacher Status. The accompanying extra resources offers topic-specific self-audits for you to monitor your progress, exemplar lesson plans, a range of Portfolio Tasks mapped directly to current teacher standards and web links to up-to-date online resources. New to this edition: Resource Inspiration boxes give inviting examples of different activities to do with your class to provide inspiration for your own teaching. High-quality videos with corresponding discussion have been expertly selected from Teachers TV help to widen your skills and develop your practice, offering tips, lesson ideas and classroom resources.
