mathematical thinking are emphasized throughout In addition to learning the concepts students develop power with numbers and understand how and why math works the way it does These books are skill specific not grade specific Challenge problems are sprinkled throughout the books to stretch students thinking and to help them grow in their problem solving skills MathWise books can be used to supplement any curriculum They can be used for remediation with higher grades and they can be used for enrichment with lower grades They can also be used to pre teach concepts or to review material that was previously presented Students often say that the MathWise books helped them to really understand the material for the first time The layout explanations tips and tricks sequence of instruction and mathematical connections presented in these books all contribute to the success of the curriculum The material in the MathWise books took over 14 years to create and design These books have been used tested and critiqued in the classroom for over a decade [Math Links 8 Student Book](#) Bruce McAskill, Wayne Watt, Stella Ablett, Blaise Johnson, Greg McNulty, Tricia Licorish (Perry), Michael Webb, Rick Wunderlich, 2008-05 Alberta authorized basic student resource for Mathematics grade 8 2008
