The Other Alliance Martin Klimke, 2011-09-04 Using previously classified documents and original interviews *The Other Alliance* examines the channels of cooperation between American and West German student movements throughout the 1960s and early 1970s and the reactions these relationships provoked from the U S government Revising the standard narratives of American and West German social mobilization Martin Klimke demonstrates the strong transnational connections between New Left groups on both sides of the Atlantic Klimke shows that

African American protestors elicited sympathy for the cause King's fierce determination to overturn the status quo of racial relations antagonized FBI director J. Edgar Hoover. The FBI and Martin Luther King Jr. follows Hoover's personal obsession to destroy the civil rights leader. In an unprecedented abuse of governmental power Hoover led one of the most invasive surveillance operations in American history desperately trying to mar King's image. As a collection these utterly engrossing books are a key to understanding King's inner life, his public persona and his legacy and are a testament to his impact in forcing America to confront intolerance and bigotry at a critical time in the nation's history.

Baptized in the Fire of Revolution Jun Xing, 1996. The efforts made by YMCA secretaries as the administrative officers were called to apply social gospel ideas to China's political, social and cultural environment provides a unique perspective on the history of cross-cultural interaction or rather collisions between the two countries born of different civilizations. While the influence in this case ran mainly in one direction from the United States to China, the implications flowed in two ways especially for the YMCA secretaries as field workers. The process of implanting the American social gospel into the Chinese setting involved negotiations, confrontations and amalgamation along a whole range of different cultural norms and values on the scene including the indigenous Confucianism, Chinese nationalism and international communism. The YMCA leaders' cross-cultural experiences transformed their own understanding and interpretation of the Christian mission and their own cultural identity as a result of their interactions with the cultural forces in China. The export of benevolence and the spread of American dreams is a recurrent theme in American history. The social gospel experience not only forms an important chapter in the history of Sino-American cultural relations but also bears important contemporary implications. It may show that many Americans have yet to learn that American society is pluralistic and that differences in color, religion and political beliefs must be tolerated. Also in view of the recent escalation of international reformism and the call for exporting the American dream, it is important to know that Americans cannot Christianize the world after their own images for every culture has its own share to contribute to an interdependent world community in the twenty-first century.
