Problems of Medieval Jewish Philosophy Dov Schwartz, 2006-02-01 This book deals with central issues of medieval Jewish philosophy Among the subjects treated are divine immanence the intellect miracles and esoteric writing and its limits The work provides a new perspective on the history of Jewish philosophy in the Middle Ages Relying on many as yet unpublished manuscripts which enable it to offer new insights relating to such thinkers as Judah Halevi Maimonides and Gersonides it also presents a new and original perception of the dynamics of Jewish thought in general Encyclopedia of Medieval Philosophy Henrik Lagerlund, 2010-12-07 This is the first reference ever devoted to medieval philosophy It covers all areas of the field from 500 1500 including philosophers philosophies key terms and concepts It also provides analyses of particular theories plus cultural and social contexts **World Soul** James Wilberding, 2021 Many philosophers and scientists over the course of history have held that the world is alive It has a soul which governs it and binds it together This suggestion once so wide spread may strike many of us today as strange and antiquated in fact there are few other concepts that on their face so capture the sheer distance between us and our philosophical inheritance But the idea of a world soul has held so strong a grip upon philosophers imaginations for over 2 000 years that it continues to underpin and even structure how we conceive of time and space The concept of the world soul is difficult to understand in large part because over the course of history it has been invoked to very different ends and within the frameworks of very different ontologies and philosophical systems with varying concepts of the world soul emerging as a result This volume brings together eleven chapters by leading philosophers in their respective fields that collectively explore the various ways in which this concept has been understood and employed covering the following philosophical areas Platonism Stoicism Medieval Indian or Ved ntic Kabbalah Renaissance Early Modern German Romanticism German Idealism American Transcendentalism and contemporary quantum mechanics and panpsychism theories In addition short reflections illuminate the impact the concept of the world soul has had on a small selection of areas outside of philosophy such as harmony the biological concept of spontaneous generation Henry Purcell psychoanalysis and Gaia theories *The Cambridge History of Judaism: Volume 5, Jews in the Medieval Islamic World* Phillip I. Lieberman, 2021-09-02 Volume 5 examines the history of Judaism in the Islamic World from the rise of Islam in the early sixth century to the expulsion of Jews from Spain at the end of the fifteenth This period witnessed radical transformations both within the Jewish community itself and in the broader contexts in which the Jews found themselves The rise of Islam had a decisive influence on Jews and Judaism as the conditions of daily life and elite culture shifted throughout the Islamicate world Islamic conquest and expansion affected the shape of the Jewish community as the center of gravity shifted west to the North African communities and long distance trading opportunities led to the establishment of trading diasporas and flourishing communities as far east as India By the end of our period many of the communities on the other side of the Mediterranean had come into their own while many of the Jewish communities in the Islamicate world had retreated from their high water mark **Encounters of the Children of Abraham from Ancient to Modern Times** Antii

Laato, Pekka Lindqvist, 2010-09-14 The 16 contributions to this volume written by scholars from various fields of religious studies lead the reader to comprehend the plurality of interreligious encounters hostile yet also peaceful between the Children of Abraham i.e. Judaism Christianity and Islam The Letter Before the Spirit: The Importance of Text Editions for the Study of the Reception of Aristotle Aafke M. Medieval Jewish Philosophy and Its Literary Forms Aaron W. Hughes, James T. Robinson, 2019-07-11 This well written accessible essay collection demonstrates a maturation in Jewish studies and medieval philosophy Choice Too often the study of philosophical texts is carried out in ways that do not pay significant attention to how the ideas contained within them are presented articulated and developed This was not always the case The contributors to this collected work consider Jewish philosophy in the medieval period when new genres and forms of written expression were flourishing in the wake of renewed interest in ancient philosophy Many medieval Jewish philosophers were highly accomplished poets for example and made conscious efforts to write in a poetic style This volume turns attention to the connections that medieval Jewish thinkers made between the literary the exegetical the philosophical and the mystical to shed light on the creativity and diversity of medieval thought As they broaden the scope of what counts as medieval Jewish philosophy the essays collected here consider questions about how an argument is formed how text is put into the service of philosophy and the social and intellectual environment in which philosophical texts were produced
