*Islamic Natural Law Theories* Anver M. Emon, 2010-04-08 This book offers the first sustained jurisprudential inquiry into Islamic natural law theory It introduces readers to competing theories of Islamic natural law theory based on close readings of Islamic legal sources from as early as the 9th and 10th centuries CE In popular debates about Islamic law modern Muslims perpetuate an image of Islamic law as legislated by God to whom the devout are bound to obey Reason alone cannot obligate obedience at most it can confirm or corroborate what is established by source texts endowed with divine authority This book shows however that premodern Sunni Muslim jurists were not so resolute Instead they asked whether and how reason alone can be

the basis for asserting the good and the bad thereby justifying obligations and prohibitions under Shari'a. They theorized about the authority of reason amidst competing theologies of God. For premodern Sunni Muslim jurists, nature became the link between the divine will and human reason. Nature is the product of God's purposeful creation for the benefit of humanity. Since nature is created by God and thereby reflects His goodness, nature is fused with both fact and value. Consequently, as a divinely created good, nature can be investigated to reach both empirical and normative conclusions about the good and bad. They disagreed, however, whether nature's goodness is contingent upon a theology of God's justice or God's potentially contingent grace upon humanity, thus contributing to different theories of natural law. By recasting the Islamic legal tradition in terms of legal philosophy, the book sheds substantial light on an uncharted tradition of natural law theory and offers critical insights into contemporary global debates about Islamic law and reform. **Soft Force** Ellen Anne

McLarney, 2015-05-26 The unheralded contribution of women to Egypt's Islamist movement and how they talk about women's rights in Islamic terms. In the decades leading up to the Arab Spring in 2011, when Hosni Mubarak's authoritarian regime was swept from power in Egypt, Muslim women took a leading role in developing a robust Islamist presence in the country's public sphere. *Soft Force* examines the writings and activism of these women, including scholars, preachers, journalists, critics, actors, and public intellectuals who envisioned an Islamic awakening in which women's rights and the family, equality, and emancipation were at the center. Challenging Western conceptions of Muslim women as being oppressed by Islam, Ellen McLarney shows how women used soft force, a women's jihad characterized by nonviolent protest to oppose secular dictatorship and articulate a public sphere that was both Islamic and democratic. McLarney draws on memoirs, political essays, sermons, newspaper articles, and other writings to explore how these women imagined the home and the family as sites of the free practice of religion in a climate where Islamists were under siege by the secular state. While they seem to reinforce women's traditional roles in a male-dominated society, these Islamist writers also reoriented Islamist politics in domains coded as feminine, putting women at the very forefront in imagining an Islamic polity. Bold and insightful, *Soft Force* transforms our understanding of women's rights, women's liberation, and women's equality in Egypt's Islamic revival.

Islamic Biomedical Ethics Abdulaziz Sachedina, 2009-04-06 In this pioneering work, Abdulaziz Sachedina, a scholar with life-long academic training in Islamic law, relates classic Muslim religious values to the new ethical challenges that arise from medical research and practice. **The Masks of the Political God** Luca Ozzano, 2020-08-31 This book analyses the influence of religion on political parties and party politics in contemporary democracies. To do so, it compares five cases of democracies belonging to different geographic/cultural areas and marked by different religious majorities: India, Israel, Italy, Turkey, and the US. The time span of the analysis is the period between 1980, which can be conventionally regarded as a turning point for the return of religion in the public and the political spheres at the global level, and the present day. Unlike most works on religion and parties, this book does not simply take into account officially religious parties but all religiously

oriented parties with an influence of religion on party manifestos constituencies and or factions even if they are officially secular The theoretical framework is provided by the cleavages theory which considers some relevant traumatic social events as the origin of specific kinds or families of political parties and by a typology of religiously oriented parties dividing them into five categories conservative fundamentalist progressive nationalist and camp party

**Central Asia** Rein Mullerson, 2014-04-04 This is an important analysis of a key but little known region in the wider context of world politics Central Asia has huge oil and gas resources divided between five independent states Kazakhstan Kyrgyzstan Tajikistan Turkmenistan and Uzbekistan each with their own

problems and interests The region is energy rich and being situated between Russia and China and close to Afghanistan and other potential trouble spots it has acquired immense geo strategic importance History is seen and felt everywhere Old legacies whether they go back to Genghis Khan or stem from the recent Soviet past have a profound effect on contemporary issues and political choices Concentrating on today s problems against a complex historical background the book draws on the author s extensive involvement with the region Considerable attention is paid to Central Asian Islam human rights issues in the region and Central Asia s place in the war against terrorism The Muslim Speaks Khurram Hussain,2020-10-29 The Muslim Speaks reimagines Islam as a strategy for investigating the modern condition Rather than imagining it as an issue external to a discrete West Khurram Hussain constructs Islam as internal to the elaboration and expansion of the West In doing so he reveals three discursive traps that of freedom reason and culture that inhibit the availability of Islam as a feasible critical interlocutor in Western deliberations about moral intellectual and political concerns Through close examination of this inhibition Hussain posits that while Islamophobia is clearly a moral wrong depoliticization more accurately describes the problems associated with the lived experience of Muslims in the West and elsewhere Weaving together his conclusions in the hope of a common world Khurram Hussain boldly and quite radically deems that what Islam needs is not depoliticization but infact repoliticization **Between Ideology and Politics** Taghreed Alsabeh,2024-10-31 This study presents a comparative case study approach to analyzing the foreign policies of ruling Islamist parties in Egypt Morocco and Tunisia The book investigates whether democratically elected ruling Islamist parties apply their ideology to foreign policy and how their foreign policy approaches differ to that of non Islamist parties Taghreed Alsabeh provides in depth analysis of the Freedom and Justice Party FJP in Egypt the Justice and Development Party PJD in Morocco and the Ennahda Party in Tunisia over a period of twelve years and compares their foreign policy approaches and outcomes to those of their own internal non Islamist counterparts What emerges is a detailed picture of each country s foreign policy trajectories through successive governments both Islamist and non Islamist rule and clear sites of commonality as well as divergence Alsabeh demonstrates that ultimately Islamist parties foreign policies have been ideologically constrained to a large degree by national contexts such as limited time in power limited control of the government and their relationships with other domestic political actors *My Hope for Peace* Jehan Sadat,2009-03-24 From the distinguished educator international crusader for humanitarian causes and widow of the Nobel Peace Prize winner President Anwar Sadat comes a foolproof plan for peace in the Middle East In 1979 the Camp David Accords brokered by Jimmy Carter between Israeli Prime Minister Menachem Begin and Egyptian President Anwar Sadat culminated in the signing of the historic Israeli Egyptian peace treaty the first agreement in which an Arab country recognized Israel and an agreement that has held up to this day Jehan Sadat was there and on the thirtieth anniversary of this historic event she brings us a polemic for peace like no other My Hope for Peace answers a set of three challenges challenges to Sadat s faith challenges to the role women play in that faith and most of all challenges to the idea that peace in

the Middle East is an unattainable dream In the heart of the book Mrs Sadat lays out not only the fundamental issues dividing the Middle East but also a tried and true series of steps that will lead to their resolution With a wit and charm developed over fifty years in the public eye Mrs Sadat draws on her personal experiences from her career as first lady of Egypt to her further and yet greater commitments to peace in her widowhood to explain plainly and frankly the historical political and religious underpinnings of the peace process which many in the West have yet to understand Along the way she outlines the origins of modern Islamic terrorism something she has confronted both politically and personally she addresses the attendant misconceptions about her faith and she debunks many of the myths of Muslim womanhood not least by displaying the clear eyed passion and political acumen that have earned her worldwide admiration
