Kevin Lacey,2021-12-01 Free thinking poet grammarian social critic and satirist Ab al Al al Ma arr 973 1057 CE remains one of the more celebrated and intriguing personalities in the history of Arab Islamic civilization Although the controversies surrounding his skepticism cynicism and anticlericalism have never been completely resolved his more disquieting writings are commonly available in the Arab world cited in standard histories of Arabic literature and the subject of scholarly studies Al Ma arr is universally recognized as a giant among the litterateurs of Islam deservedly famous for the role that he played in the development of Arabic verse as a more serious vehicle of religious political thought and social criticism The centrality attributed to al Ma arr as innovator has been linked to a strain of inquiry that has been particularly paramount to Westerners To what extent did al Ma arr and other unconventional thinkers stray from the course of mainstream Islamic thought In this book R Kevin Lacey places al Ma arr within the broader context of Arab Islamic political and intellectual history up to the mid eleventh century and identifies the coherencies and incoherencies within his overall thought in an effort to determine the extent to which he deviated from his inherited faith Al Ma arr and his like were hardly representative and their imprint on their co religionists may be questionable but they must be taken into consideration in order to do full justice to the intellectual history of Islam

Islamic Philosophy Oliver Leaman,2013-05-03

Although Islamic philosophy represents one of the leading philosophical traditions in the world it has only recently begun to receive the attention it deserves in the non Islamic world This important text provides a concise and accessible introduction to the major movements thinkers and concepts within that tradition from the foundation of Islam to the present day Ever since the growth of Islam as a religious and political movement Muslim thinkers have sought to understand the theoretical aspects of their faith by using philosophical concepts Leaman outlines this history and demonstrates that although the development of Islamic philosophy is closely linked with Islam itself its form is not essentially connected to any particular religion and its leading ideas and arguments are of general philosophical significance The author illustrates the importance of Islamic thought within philosophy through the use of many modern examples He describes and contrasts the three main movements in Islamic philosophy Peripatetic Sufi and Illuminationist and examines the Persian as well as the Arabic traditions Wide coverage is given to key aspects of Islamic philosophy including epistemology ontology politics ethics and philosophy of language providing readers with a balanced view of the discipline The second edition has been thoroughly revised and updated throughout including the addition of two new chapters on recent debates surrounding Islam s need for an enlightenment and on the future of Islamic philosophy The new edition of Islamic Philosophy will continue to be essential reading for students and scholars of the subject as well as anyone wanting to learn more about one of the most significant and influential philosophical traditions in the world today

Neither Belief nor Unbelief Sona Grigoryan, 2022-12-19 The book re examines the religious thought and receptions of the Syrian poet Ab l Al Ma arr d 1057 and one of his best known works *Luz m m l yalzam The Self Imposed Unnecessity* a collection of poems which although widely studied needs a thorough re evaluation regarding matters of un belief Given the contradictory nature of al Ma arr s oeuvre and Luz m in particular there have been two major trends in assessing al Ma arr s religious thought in modern scholarship One presented al Ma arr as an unbeliever and a freethinker arguing that through contradictions he practiced taq ya i e dissimulation in order to avoid persecution The other often apologetically presented al Ma arr as a sincere Muslim This study proposes that the notion of ambivalence is a more appropriate analytical tool to apply to the reading of Luz m specifically in matters of belief This ambivalence is directly conditioned by the historical and intellectual circumstances al Ma arr lived in and he intentionally left it unsolved and intense as a robust stance against claims of certainty Going beyond reductive interpretations the notion of ambivalence allows for an integrative paradigm in dealing with contradictions and dissonance
