## **Israeli Operations October 8 November Middle:**

**Operation Al-Aqsa flood** Jacques Baud,2024-03-01 Why did Operation Al Aqsa Flood take place and what were Hamas s objectives What really happened on the ground on October 7th What lessons can we learn from the operations carried out by both sides To answer these three questions and many others Jacques Baud revisits the Israeli Palestinian conflict from its very beginnings Why has it still not found a solution What strategies have Israelis and Palestinians adopted over the past 75 years What is the impact of this conflict on our security What are the options for Israel and Palestine in the coming years In this book of rare clairvoyance Jacques Baud deplores the fact that Western decisions are colliding with international law The question is not who we are for but how the international order created after 1945 should be applied Israel s failure to respect this law is provoking its downfall As with any conflict the solution will not come from emotion but from objective

dispassionate analysis and honest mediation Back cover **Abba Eban** Asaf Siniver,2015-11-03 Based on interviews with dozens of people and research in more than twenty archival collections this cleareyed biography deserves to be called definitive Kirkus Reviews starred review Born in South Africa educated in England and ultimately a major figure in Israeli history Abba Eban was a skilled debater a master of multiple languages and a passionate defender of the Jewish state But his diplomatic presence was in many ways a contradiction unlike any the world has seen since While he was celebrated internationally for his exceptional wit and his moderate reasoned worldview these same qualities painted him as elitist and foreign in his home country The disparity in perception of Eban at home and abroad was such that both his critics and his friends agreed that he would have been a wonderful prime minister in any country but Israel In Abba Eban Asaf Siniver paints a nuanced and complete portrait of one of the most complex figures in twentieth century foreign affairs We see Eban growing up and coming into his own as part of the Cambridge Union and watch him steadily become known as The Voice of Israel Siniver draws on a vast amount of interviews writings and other newly available material to show that in his unceasing quest for stability and peace for Israel Eban s primary opposition often came from the homeland he was fighting for no matter how many allies he gained abroad the man never understood his own domestic politics well enough to be as effective in his pursuits as he hoped The first examination of Eban in nearly forty years this is a fascinating look at a life that still offers a valuable perspective on Israel today Siniver s principal achievement is his artful documentation of the tension between Eban the intellectual and Eban the politician Such lofty thoughts do not distract Mr Siniver from listing the indiscretions and dishonesty to which Eban in his politician s guise occasionally succumbed The Wall Street Journal Siniver s levelheaded account looks at the history of Israel through the life of the country s eloquent defender TheNew York Times Book Review Editor s Choice **Israel's Mediterranean Gas** Sujata Ashwarya,2019-05-03 This book examines the internal and external implications of Israel s natural gas discoveries in the Eastern Mediterranean The nation s changed status from being an importer of coal and oil to that of an exporter of natural gas has consequences not only for the energy sector but

also for the fragile geopolitics of the region The book Explores the challenges and issues of energy economics and governance Analyses Israel s gas diplomacy with its neighbours in the Middle East and North Africa and its potential positive impact on the amelioration of the Arab Israeli conflict Studies how Israel can avoid the deleterious impact of the Dutch disease once the government s share of the export revenues start flowing The author traces a consummate picture of history politics and conflicts that shape the economics of energy in Israel and its future trajectories A major intervention in Middle East studies this volume will be of great interest to scholars and researchers of energy studies development studies strategic studies politics diplomacy and international relations It will also be of interest to government agencies think tanks and risk management firms *Middle East Contemporary Survey, Vol. 8, 1983-84* , Israel and the Gaza Strip Arnon Golan,2024-09-30 This book concentrates on the formative period of the Gaza Strip and the bordering Israeli Gaza Frontier Area considering them as a distinct geographic region that might best be understood as an integral unit of analysis Based on abundant Israeli British and American documentation articles from the contemporary Arab press and other sources that reflect Arab perspectives the book deals with the formation of the Gaza Strip between the initial drawing of the boundaries of the 1947 UN partition plan until the Israeli withdrawal from the area in March 1957 following the 1956 War It also concentrates on the development of the Israeli urban and rural settlement systems that enveloped the Gaza Strip and formed the Gaza Frontier Area Ultimately the book provides a wider understanding of the history of the Arab Israeli conflict shedding light on political military and demographic spatial plans to solve the Gaza Strip abnormality that involved radical measures such as mass population transfers The innovative historical geographical approach of the research offers key insights into the politics of the region and the book will be of particular interest to anyone studying the history and development of the Arab Israeli conflict **The Wrong Story** Greg Shupak,2018-05-10 The Wrong Story lays bare the flaws in the way large media organizations present the Palestine Israel issue It points out major fallacies in the fundamental conceptions that underpin their coverage namely that Palestinians and Israelis are both victims to comparable extents and are equally responsible for the failure to find a solution that the problem is extremists often religiously motivated ones who need to be sidelined in favour of moderates and that Israel s uses of force are typically justifiable acts of self defense Weaving together the existing literature with new insights Shupak offers an up to date and tightly focused guide that exposes the distorted way these issues are presented and why each is misguided *The War Lawyers* Craig Jones,2020-11-26 Over the last 20 years the world s most advanced militaries have invited a small number of military legal professionals into the heart of their targeting operations spaces which had previously been exclusively for generals and commanders These professionals trained and hired to give legal advice on an array of military operations have become known as war lawyers The War Lawyers examines the laws of war as applied by military lawyers to aerial targeting operations carried out by the US military in Iraq and Afghanistan and the Israel military in Gaza Drawing on interviews with military lawyers and others this book

explains why some lawyers became integrated in the chain of command whereby military targets are identified and attacked whether by manned aircraft drones and or ground forces and with what results This book shows just how important law and military lawyers have become in the conduct of contemporary warfare and how it is understood Jones argues that circulations of law and policy between the US and Israel have bolstered targeting practices considered legally questionable contending that the involvement of war lawyers in targeting operations enables legitimises and sometimes even extends military violence

Cyber Operations and the Use of Force in International Law Marco Roscini,2014-03-14 The internet has changed the rules of many industries and war is no exception But can a computer virus be classed as an act of war Does a Denial of Service attack count as an armed attack And does a state have a right to self defence when cyber attacked With the range and sophistication of cyber attacks against states showing a dramatic increase in recent times this book investigates the traditional concepts of use of force armed attack and armed conflict and asks whether existing laws created for analogue technologies can be applied to new digital developments The book provides a comprehensive analysis of primary documents and surrounding literature to investigate whether and how existing rules on the use of force in international law apply to a relatively new phenomenon such as cyberspace operations It assesses the rules of jus ad bellum and jus in bello whether based on treaty or custom and analyses why each rule applies or does not apply to cyber operations Those rules which can be seen to apply are then discussed in the context of each specific type of cyber operation The book addresses the key questions of whether a cyber operation amounts to the use of force and if so whether the victim state can exercise its right of self defence whether cyber operations trigger the application of international humanitarian law when they are not accompanied by traditional hostilities what rules must be followed in the conduct of cyber hostilities how neutrality is affected by cyber operations whether those conducting cyber operations are combatants civilians or civilians taking direct part in hostilities The book is essential reading for everyone wanting a better understanding of how international law regulates cyber combat

**Air Bridge** United States. Air Force Reserve. İlber Çoban, Muhammed Hüseyin Mercan, Muhammet Koçak, Ömer Kocaman, Rinki Dahiya, Salman Abu Sitta, Sarwat Rauf, Seher Çakan, Siyat Abdi Maalim, Suinbay Suyundikov, Yazan Qunis, Yerkin Tukumov, Yiğit Anıl Güzelipek, The 10th Summit of the Heads of State of the Organization of Turkic States OTS is a significant event for the Turkic World scheduled for November 3 2023 in Astana Kazakhstan Hosted by President Kassym Jomart Tokayev this summit is set to be a vital gathering for the leaders of Azerbaijan Kyrgyzstan Türkiye Uzbekistan and observer states along with the Secretary General of the OTS The Summit was crowned with the central theme TURKTIME a visionary proclamation from the leaders to future generations This theme embodies a unified cooperative spirit and a collective determination to steer the Turkic World toward a trajectory of prosperity and comprehensive development The acronym TURKTIME encapsulates key principles that serve as the guiding framework of the Summit Traditions Unification Reforms Knowledge Trust Investments Mediation and Energy Each pillar of TURKTIME represents a fundamental commitment and strategic focus area Traditions Upholding and valuing the rich cultural and historical heritage of the Turkic nations Unification Fostering a sense of unity and solidarity among the Turkic States enhancing regional integration Reforms Advocating for progressive changes and modernization across various sectors to meet contemporary challenges Knowledge Promoting the exchange of knowledge information and best practices among member states Trust Building a foundation of trust both within and outside the Turkic community essential for effective collaboration Investments Encouraging investment flows within the region focusing on sustainable and mutually beneficial economic growth Mediation Engaging in constructive mediation to resolve conflicts thereby ensuring regional stability and peace Energy Intensifying cooperation in the energy sector recognizing its critical role in the economic vitality and security of the Turkic states This holistic roadmap anchored by the TURKTIME ethos charts a transformative course for the OTS It emphasizes the importance of unity cooperation and sustainable development as cornerstones for the future The Summit's strategic vision as encapsulated by TURKTIME aligns the collective efforts of the Turkic World towards achieving shared goals and facing global challenges with a united front

While cooperation is gaining momentum in the Turkestan region the global landscape simultaneously confronts multifaceted challenges Politically the rise of populist movements and shifts in global leadership dynamics have introduced new complexities Escalating regional conflicts and the proliferation of non state actors have amplified security concerns Economically the world faces uncertainty marked by fluctuating markets trade tensions and concerns over sustainable development Environmentally the escalating impacts of climate change biodiversity loss and resource depletion present critical challenges Furthermore the rapid advancement and integration of technology in every sphere poses opportunities and unprecedented challenges particularly in cybersecurity digital privacy and the ethical implications of artificial intelligence This intricate tapestry of political security economic environmental and technical issues encapsulates the multifaceted nature of contemporary global difficulties Besides resurgence of traditional security issues such as the return of power politics and the intensified global rivalry the world now faces unconventional threats such as food crisis health issues climate change global warming and illegal refugee problems The United States U S lost much of its constructive power and political will to act as an effective hegemon Neither the U S nor the challenging powers such as Russia respect the main principles of international law and decisions of global international organization such as the United Nations UN Enforcement and respect for international law are critical challenges in current International Relations International law acts as a framework for global governance but its effectiveness largely depends on the willingness and power of states The U S and Russia as permanent members of the UN Security Council profoundly influence the interpretation and enforcement of international norms and laws However their actions often reveal a selective adherence to international legal obligations influenced by national interests and political objectives This selective adherence of states above brings to light the complexity of applying international law where balancing national interests and political agendas with international legal commitments becomes a delicate task A significant instance of this selective adherence is the U S exercise of its veto power at the UN Security Council obstructing a widely supported resolution for an immediate humanitarian ceasefire in Gaza This act is indicative of the U S s distinct role in international decision making which should ideally contribute to global welfare rather than represent a form of exceptionalism Against this backdrop the World is Bigger than Five discourse by President Recep Tayyip Erdo an becomes increasingly relevant calling for a more inclusive just and representative global decision making process for the UN Echoing UN Secretary General Antonio Guterres comments on the U S veto in the Security Council where he noted The delay comes at a cost the Security Council s authority and credibility were severely undermined and the resolution is not being implemented there is an urgent need for reform in the UN system Such reforms are vital to confront challenges like the U S veto power ensuring the UN s capacity to effectively prevent wars and maintain international peace and security At the end the world system has totally collapsed especially after the most recent violations of the system such as the invasion of Ukraine by the Russian Federation and the Israeli genocidal acts in the Gaza Strip

against the innocent Palestinians While the Western states which are considered as the pro status quo powers fiercely opposed the Russian invasion of Ukraine they did not oppose the Israeli atrocities On the contrary Western countries particularly the U S have provided unconditional and limitless military political and economic support to Israel As mentioned earlier such selective adherence exacerbates the crisis on this matter Furthermore global international organizations such as the UN as Secretary General Guterres underlined fail to prevent regional and global conflict and to punish the states who violates basic human rights and commit war crimes In this chaotic and unstable world many middle power states have been trying to form regional coalitions to increase their deterrent powers and to establish balance of power against real or potential threats T rkiye as a regional power and a global actor has also been trying to form bilateral and multilateral regional coalitions with certain countries to maximize its national interests and also to increase its regional effectiveness Within this context the AK Party government under the leadership of President Erdo an has declared the establishment of a Turkish Axis at the beginning of the second century of the Turkish Republic When examined closely it can be easily inferred that there are two main groups of states that T rkiye can improve its relations to form the Turkish Axis namely Turkic and Muslim states T rkiye has accordingly tried to improve its relations with the Turkic states in the context of ongoing geopolitical turbulence and shifts at the global and regional levels In alignment with its broader geopolitical strategy T rkiye has played a crucial role in shaping the OTS particularly since the 8th Turkic Summit which took place in Istanbul on November 12 2021 This influential role was further highlighted in the wake of T rkiye s significant support to Azerbaijan during the Second Karabakh War This involvement not only solidified T rkiye s relations with fellow Turkic states but also expanded its strategic and economic engagement in the Turkestan region Such developments are indicative of T rkiye s escalating influence within the Eurasian geopolitical sphere characterized by a harmonious blend of diplomatic economic and cultural cooperation under the auspices of the OTS framework T rkiye recognizes the strategic significance of its engagement with the Turkic states located in Central Asia and the Caucasus the regions that have long attracted the attention of global powers due to their abundant natural resources strategic location potential for economic development transportation logistics and connectivity T rkiye has consistently nurtured and progressively strengthened its relationships with fellow Turkic states since their independence As previously mentioned this bond was further reinforced by T rkiye s pivotal role in the Second Karabakh War highlighting its significant strategic influence in shaping the region s geopolitical landscape During this conflict Ankara played an instrumental role in facilitating the liberation of Azerbaijani territories and at the same time underscored T rkiye s strategic importance and bolstered its standing among these nations T rkiye s successful interventions in regional crises such as Libya and Syria also had a positive impact on its image In this context the Turkic states decision to align with T rkiye can be seen as a strategic move to leverage T rkiye s increasing influence in regional geopolitics and global affairs This collaboration allows them to amplify their voice on the international stage enhancing their

bargaining power and positioning in global geopolitics The alignment with Türkiye is not just about leveraging Türkiye's capabilities it's also about cultivating a unified front to address the complex dynamics of global challenges thereby fostering regional stability economic growth and cultural exchange among the Turkic states The establishment of OTS has increased expectations for the Turkic states to initiate a multidimensional and multi level relations within the Turkic world Considering that many states want to become part of OTS as observer members it is clear that the organization will serve as the main locomotive of a possible regional integration of the Turkic world and make a great contribution to the institutionalization of cooperation among the Turkic states OTS has a great potential in political economic strategic and social dimensions within international and regional systems The Turkic nations who have a common language culture and religion are likely to collaborate economic and technical sectors such as in trade transport energy agriculture education and high tech ventures and tackle common challenges such as water resource management Furthermore the security and military dimension has become increasingly prominent within the multidimensional areas of cooperation among the Turkic states in recent years In conclusion the ascendance of the OTS in the Eurasian geopolitical landscape signals a transformative phase in the region's dynamics with the OTS poised to enhance economic and strategic connectivity between Europe and Asia This evolving role of the OTS indicative of a new geopolitical order is significantly influenced by Türkiye's active participation and leadership Türkiye's role in the OTS has been instrumental in transitioning the organization from a platform for dialogue to a powerful union of states committed to trade enhancement economic cooperation and bolstering regional stability This pivotal role played by Türkiye leveraging its unique geographical and cultural position as a linchpin between Europe and Asia has been crucial in steering the OTS towards greater regional integration and a heightened global presence As mentioned above the 10th Summit of the OTS themed Turk Time encapsulates the essence of this transformation The acronym TURKTIME symbolizes the core principles guiding the Summit These principles reflect not only the Summit's focal areas but also the overarching goals and aspirations of the OTS with Türkiye's stewardship They highlight a commitment to preserving cultural heritage fostering unity driving meaningful reforms expanding knowledge building trust promoting strategic investments facilitating mediation in conflicts and prioritizing energy cooperation This thematic framework of TURKTIME not only shapes the discourse of the Summit but also mirrors the broader strategy of the OTS in its quest for a more interconnected and influential role on the global stage Thus the OTS with Türkiye's significant influence stands as a testament to the evolving nature of regional alliances and their capacity to shape international relations in the 21st century In its special issue highlighting the importance of the Turkic World Insight Turkey presents 4 commentaries and 4 research articles related to the subject Additionally it includes 4 off topic publications which touch upon the Palestinian issue focusing on the aftermath of October 7 operation and the role of energy in Türkiye Russia relations Our first commentary with the contributions of Farid Shafiyev begins by discussing the evolution of the OTS emphasizing its transformation from a consultative mechanism to a

powerful international organization of geostrategic importance In his analysis Shafiyev highlights Azerbaijan's goal of promoting Turkic unity by examining significant events such as the Shusha Declaration the aftermath of the Second Karabakh War and the strategic alliance between Turkic states By focusing on current trends in regional and global politics that have given rise to the development of the OTS the author argues that it is imperative to strengthen and enhance cooperation among Turkic states and that the importance of Turkic unity in today's complex geopolitical landscape is only growing In the second commentary Yerkin Tukomov focuses on the relations between the Turkic World and Kazakhstan Tukomov argues that Kazakhstan is fully cognizant of the strategic importance of its relations with the OTS member states and is actively engaged in managing the complex balance between geopolitical challenges and opportunities In his commentary Tukomov endeavors to provide a comprehensive summary of Kazakhstan's short and medium term strategic priorities On the other hand Ferrukh Khakimov examines the current bilateral and multilateral relations between Uzbekistan and Türkiye in the context of ongoing geopolitical turmoil and changes at global and regional levels Khakimov argues that strengthening a comprehensive strategic partnership between Uzbekistan and Türkiye is vital to maintaining the geopolitical balance of power in the region and effectively addressing the common challenges of sustainable development Later the analysis provided by Mer Kocaman presents a comprehensive and nuanced account of the OTS The evaluation traces the evolution of the OTS from the dissolution of the Soviet Union to its recent summits examining aspects such as its establishment institutionalization and regional and international involvement Additionally the analysis delves into the organization's development project implementation and increasing global influence while emphasizing the OTS dedication to fostering cooperation and solidarity among Turkic states This special issue of Insight Turkey centers on the importance of the Turkic World and within it Abzal Dosbolov and Gökten Sönmez present a research article that examines how the OTS supported Central Asian republics in addressing their historical legacies specifically after Russian influence in the 18th century Examining the post independence phase of the Central Asian republics from a postcolonial perspective the authors highlight the role of OTS in promoting regional cooperation cultural revival and social unity The article provides a comprehensive overview of the role of OTS in promoting growth and development in Central Asia while underlining the importance of strategic autonomy for Central Asia in the context of evolving regional dynamics Similarly in the second research article with a focus on the intricate geopolitical landscape of Central Asia and the Caucasus Muhammet Kök thoroughly examines and analyzes the OTS and its potential in economic strategic and social dimensions within international and regional systems In his analysis Kök delves into the various factors that impact the potential of OTS to foster cooperation and solidarity among the Turkic states He also examines the mechanism at play in the interconnected strategic economic and social structures to provide a comprehensive understanding of the situation In our next research articles the security aspect in Central Asia is discussed both under the umbrella of OTS and in the context of the Azerbaijan Armenia war Based on the Turkic states

attempts to come together and become a comprehensive international organization Bu ra Sar touches upon the issue of member states pursuing coordinated policies on security issues of mutual interest According to Sar the security dimension has been added to the multidimensional cooperation areas within OTS in recent years In this regard the author aims to investigate the positive results of the security cooperation developed and strengthened between the Turkic states under the umbrella of OTS focusing especially on basic security issues such as systemic security regional security counter terrorism and military capacity On the other hand Sarwat Rauf examines the Azerbaijan Armenia conflict and explores the main factors that led Russia the European Union and T rkiye to offer mediation to resolve the conflict In her research Rauf shows that a new geopolitical shift is taking place in the South Caucasus region leading to complexities among some of the options identified by mediators Furthermore to broaden the scope of our coverage our Fall issue confidently presents two commentaries and one research article focusing on the Palestinian issue In this respect our two valuable authors evaluated the current situation in the commentaries section by emphasizing the latest events in Gaza and considering the historical perspective Firstly Salman Abu Sitta offers a rigorous and critical examination of the Palestinian Nakba and the ongoing Israeli Palestinian conflict delving into its historical roots to gain a comprehensive understanding of the current situation in Gaza Emphasizing that the ongoing conflicts in Gaza since October 7 2023 have deeply affected the world and countless innocent lives have been tragically lost Sitta defends the fundamental right of Palestinian refugees to return to their homeland claiming that this is an important element on the path to conflict resolution and permanent peace Similarly Muhammad H seyin Mercan s commentary discusses the Operation al Aqsa Flood Mercan also examines the possible impact of the operation on global and regional politics taking into account that the ongoing process will change the political balances in the Middle East Next Berdal Aral in his research article discusses the legal debates regarding the crisis caused by the military operation launched by the Palestinian forces of the Gaza based resistance against Southern Israel on October 7 2023 In his article Aral answers questions such as which side of the conflict can rightfully claim the right to self defense did Israel commit genocide in Gaza do Israel s statehood and territorial claims rest on firm legal grounds is it legally sensible to argue that Israel is a threat to international peace and security to elucidate the legal issues surrounding the current crisis and the broader context of Israel s legal status as a state and its territorial claims Finally our last off topic research article by Suinbay Suyundikov and Ahmet G kbel examines the significance of energy in the relations between T rkiye and Russia Suyundikov and G kbel first introduce the theory of interdependence and then analyze the energy policies and energy situation of Russia and T rkiye in detail The authors argue that Russia plays an important role in T rkiye s energy supply with its rich energy resources and that T rkiye is an important market for Russia s energy exports and examine the energy relations between T rkiye and Russia within the framework of the theory of interdependence As we bid farewell to another eventful year we are thrilled to present this latest issue of Insight Turkey enriched with six thought provoking commentaries

and six in depth research articles Each piece has been carefully selected to enhance and diversify our coverage providing our readers with a multifaceted and profound understanding of the various topics discussed It is our earnest hope that this issue not only enlightens but also engages our readers in meaningful reflection and dialogue furthering the pursuit of knowledge and understanding in these dynamic times

**A Short History of the Gaza Strip** Anne Irfan,2025-08-28 The Gaza Strip is one of the most widely reported on regions in the world yet misinformation about its history and its people abound In this vital book historian Anne Irfan explains Gaza s outsized political significance through six pivotal moments in its modern history beginning with Israel s expulsion of the Palestinian people upon its establishment in 1948 when the Gaza region was truncated to the strip we know today As she takes us through Israel s occupation of Gaza the Palestinian national struggle and formation of the PLO the first intifada the creation of the Palestinian Authority and the rise of Hamas she tackles widespread historical ignorance and untangles contradicting narratives Drawing on a decade of research Irfan weaves in the voices of everyday Palestinians from farmers and teachers to poets and activists Written with remarkable clarity and compassion A Short History of the Gaza Strip is an indispensable read for anyone seeking to understand Palestine today

**Doctrine of Terror** Mahboob Illahi,2018-10-02 The book highlights the fact that Islam does not encourage or incite intolerance of other faiths and that it values sanctity of human life regardless of religious affiliation and abhors violence and extremism as being perpetrated by the misguided muslim jihadists of al Qaeda ISIS and their associated terrorist groups that have been wreaking atrocities on defenseless civilian populations of Muslim majority

countries including women and children The book describes the inception support and unlimited funding of these groups by the Sunni Arab countries and implores the Funders to discontinue their support forthwith to restore peace and stability to the marginalized communities particularly the Shia Muslims of the world who have been subjected to persecution for centuries ever since the advent of Islam in the seventh century following the death of the Prophet of Islam in 623 The book also implores the World powers to end their tacit support of terrorism by seriously confronting the supporters of terrorist groups without which the terrorism will not end

**The War of Return** Adi Schwartz, Einat Wilf, 2020-04-28 Two prominent Israeli liberals argue that for the conflict between Israel and the Palestinians to end with peace Palestinians must come to terms with the fact that there will be no right of return In 1948 seven hundred thousand Palestinians were forced out of their homes by the first Arab Israeli War More than seventy years later most of their houses are long gone but millions of their descendants are still registered as refugees with many living in refugee camps This group unlike countless others that were displaced in the aftermath of World War II and other conflicts has remained unsettled demanding to settle in the state of Israel Their belief in a right of return is one of the largest obstacles to successful diplomacy and lasting peace in the region In *The War of Return* Adi Schwartz and Einat Wilf both liberal Israelis supportive of a two state solution reveal the origins of the idea of a right of return and explain how UNRWA the very agency charged with finding a solution for the refugees gave in to Palestinian Arab and international political pressure to create a permanent refugee problem They argue that this Palestinian demand for a right of return has no legal or moral basis and make an impassioned plea for the US the UN and the EU to recognize this fact for the good of Israelis and Palestinians alike A runaway bestseller in Israel the first English translation of *The War of Return* is certain to spark lively debate throughout America and abroad
