Comparative, International, and Global Justice Cyndi Banks, James Baker, 2015-09-23 Comparative International and Global Justice Perspectives from Criminology and Criminal Justice presents and critically assesses a wide range of topics relevant to criminology criminal justice and global justice The text is divided into three parts comparative criminal justice international criminology and transnational and global criminology Within each field are located specific topics which the authors regard as contemporary and highly relevant and that will assist students in gaining a fuller appreciation of global justice issues Authors Cyndi Banks and James Baker address

these complex global issues using a scholarly but accessible approach often using detailed case studies. The discussion of each topic is a comprehensive contextualized account that explains the social context in which law and crime exist and engages with questions of explanation or interpretation. The authors challenge students to gain knowledge of international and comparative criminal justice issues and think about them in a critical manner It has become difficult to ignore the global and international dimensions of criminal justice and criminology and this text aims to enhance criminal justice education by focusing on some of the issues engaging criminology worldwide and to prepare students for a future where fields of study Globalizing Local Policing David Sausdal, 2023-03-24 The book examines like transnational crime are unexceptional the globalization of local policing through an ethnographic study of the Danish Police Where many studies are looking into how larger inter or transnational policing bodies and policies are changing the world of policing few have gauged how local public police forces are also globalizing This book provides some unique insights into this under researched process Specifically it describes the daily practices and perceptions of two Danish detective task forces tasked with the investigation of organized property crimes committed by foreign nationals In the book readers get to see how the detectives think and work including the many efforts they make in attuning their daily work to a more global reality More so readers get to see how the detectives fail and the many frustrations and concerns that such changes include One the one hand Danish detectives very much understand the need to de localize and develop their work On the other hand they feel that many of these changes are in conflict with what they find to be real and rewarding police work For people interested in contemporary issues of policing the book thus points to a puzzling paradox Globalization might be making for more mobile and even mobilised local forces more technologically driven and collaborating with international partners However these very processes are also making local officers feel more disarmed than ever Ultimately the book describes why that is its consequences as well as how to imagine a form of global policing more in tune with its local actors **Accountability of Policing** Stuart Lister, Michael Rowe, 2015-07-30 Accountability of Policing provides a contemporary and wide ranging examination of the accountability and governance of police and policing Debates about who guards the guards are among the oldest and most protracted in the history of democracy but over the last decade we have witnessed important changes in how policing and security agencies are governed regulated and held to account Against a backdrop of increasing complexity in the local national and transnational landscapes of policing political legal administrative and technological developments have served to alter regimes of accountability The extent and pace of these changes raises a pressing need for ongoing academic research analysis and debate Bringing together contributions from a range of leading scholars this book offers an authoritative and comprehensive analysis of the shifting themes of accountability within policing The contributions explore questions of accountability across a range of dimensions including those individuals and institutions responsible for its delivery within and between the public and private sectors and at local national and transnational scales of jurisdiction They

also engage with the concept of accountability in a broad sense bringing to the surface the various meanings that have become associated with it and demonstrating how it is invoked and interpreted in different contexts Accountability of Policing is essential reading for academics and students involved in the study of policing criminal justice and criminology and will also be of great interest to practitioners and policymakers Handbook of Policing Tim Newburn, 2012-08-21 This new edition of the Handbook of Policing updates and expands the highly successful first edition and now includes a completely new chapter on policing and forensics It provides a comprehensive but highly readable overview of policing in the UK and is an essential reference point combining the expertise of leading academic experts on policing and policing practitioners Contemporary Issues in Canadian Policing Stephen Emmanuel Nancoo, 2004 Focuses on the important themselves challenges facing the police and the community Part I articulates two views of public policing policing as force and policing as risk minimization Part II examines the new paradigm of community policing and outlines the principles and practices of a made in Canada community policing model Part III looks at the critical issues of the police subculture ethics and technology Part IV discusses human resources issues of managing diversity women in policing and the recruitment and promotion of visible minorities and aboriginal people Part V features operational issues such as public order interrogation the use of force police discretion and transnational policing Part VI explores trends and prospects in the 21st century and the challenges of globalization terrorism national security racial profiling organizational performance measurement and the public policing private security debate Nordic Criminal Justice in a Global Context Mikkel Jarle Christensen, Kjersti Lohne, Magnus Hörngvist, 2022-10-18 This book critically investigates Nordic criminal justice as a global role model Not taking this role for granted the chapters of the book analyze how Nordic approaches to criminal justice were folded into global contexts and how patterns of promotion were built around perceptions that these approaches also had a particular value for other criminal justice systems Specific actors both internal and external to the region itself have branded Nordic criminal justice as a form of penal exceptionalism associated with human rights universalistic welfare and social cohesion. The book shows how building and using the brand of Nordic criminal justice allowed stakeholders to champion specific forms of crime control across a variety of criminal justice areas in both domestic and international settings The book will be of interest to scholars and students of criminal justice international law and justice Nordic and Scandinavian studies and more widely to the social Challenges of Policing Democracies Dilip Das, Marenin Otwin, 2012-10-12 In this text the editors sciences and humanities analyze the diverse situations that police forces operate under and the challenges that they face in different kinds of democracies This cross cultural comparison of various systems highlights the universal observation that police are a anomaly in a democracy and explores how various influences for example large scale social violence a zeal for crime fighting and vulnerability to temptation often find police incapable of behaving in a democratic manner Challenges of Policing Democracies goes beyond just showing the similarities and differences of the policing challenges democratic societies face it

also examines the responses and remedies adopted by police in various countries at different levels of democratic achievement and how every society struggles with the challenges of preserving democratic values without sacrificing the effectiveness of policing
