community of Egypt in modern times now practically non-existent consisted in part of autochthonous Jews who traced their origins to the periods of Maimonides Philo and even the prophet Jeremiah thus making it the oldest community in the Jewish Diaspora. It also contained Jews who were part of the waves of immigration into Egypt that began in the second half of the nineteenth century. Coming mostly from Mediterranean countries, this predominantly Sephardic community maintained a network of commercial, social and religious ties throughout the entire region as well as a distinctively Mediterranean culture and life style. In this volume, international scholars examine the Ottoman background of this community, the political status and participation of the Jews in Egyptian society, their role in economic life, their contributions to Egyptian Arabic culture and the images of the community in their own eyes as well as in the eyes of Egyptians and Palestinian Jews. The book includes an extensive set of appendixes that illustrate the wide range of primary sources used by the contributors. **Guides to the**

Eucharist in Medieval Egypt Yūḥannā ibn Sabbā', Abū al-Barakāt ibn Kabar, Gabriel V of Alexandria, 2022-02-15. The fourteenth and fifteenth centuries witnessed a rising interest in Arabic texts describing and explaining the rituals of the Coptic Church of Egypt. This book provides readers with an English translation of excerpts from three key texts on the Coptic liturgy by Ab al Barak t ibn Kabar, Y h ann ibn Sabb and Pope Gabriel V. With a scholarly introduction to the works, their authors and the Coptic liturgy as well as a detailed explanatory apparatus, this volume provides a useful and needed introduction to the worship tradition of Egypt's Coptic Christians. Presented for the first time in English, these texts provide valuable points of comparison to other liturgical commentaries produced elsewhere in the medieval Christian world. **Five**

Egyptian Goddesses Susan Tower Hollis, 2019-10-03. This volume explores the earliest appearances and functions of the five major Egyptian goddesses: Neith, Hathor, Nut, Isis, and Nephthys. Although their importance endured throughout more than three millennia of ancient Egyptian history, their origins, earliest roles, and relationships in religion, myth, and cult have never before been studied together in detail. Showcasing the latest research with carefully chosen illustrations and a full bibliography, Susan Tower Hollis suggests that the origins of the goddesses derived primarily from their functions as shown by their first appearances in the text and art of the Protodynastic, Early Dynastic, and Old Kingdom periods of the late fourth and third millennia BCE. The roles of the goddess Bat are also explored, where she is viewed both as an independent figure and in her specific connections to Hathor, including the background to their shared bovine iconography. Hollis provides evidence of the goddesses' close ties with royalty and, in the case of Neith, her special connections to early queens. Vital reading for all scholars of Egyptian religion and other ancient religions and mythology, this volume brings to light the earliest origins of these goddesses, who would go on to play major parts in later narratives, myths, and mortuary cult.
