

GUIDE TO ACTION RESEARCH CHAPTER

WHAT IS ACTION RESEARCH?

Action research is a model of professional development where educators study student learning related to their own teaching, a process that allows them to learn about their own instructional practices and to continue to monitor improved student learning.

the approach

APPROACHES TO ACTION RESEARCH

Action research is a process that teachers can use in their classrooms to address instructional questions and challenges.

Individual teacher research

Focuses on studying a problem or issue within a single classroom.

The teacher who engages in individual teacher research may or may not have support from colleagues and administration to share.

Collaborative action research

Focuses on studying a problem or issue within one or more classrooms.

Teachers may collaborate and work together to study a particular problem in many different ways.

School-wide action research

Every faculty member of the school is involved in studying a specific issue identified from school data.

BENEFITS OF ACTION RESEARCH

Action research is a model of professional development where educators study student learning related to their own teaching, a process that allows them to learn about their own instructional practices and to continue to monitor improved student learning.

STUDENTS

benefits because their learning is being studied

TEACHERS

The process allows them to think about, study, and refine their own professional practice.

SCHOOLS

student achievement can improve when student learning is being studied and specific learning needs are being addressed.

Action Research Geoffrey E Mills, 2010-01-01 This is the eBook of the printed book and may not

include any media website access codes or print supplements that may come packaged with the bound book. Born of the author's own experience working with teachers and principals, *Action Research* Fourth Edition provides a research-based step-by-step outline of how to do action research. The author guides teachers and administrators through the action research process via numerous concrete illustrations, positioning it as a fundamental component of teaching. Action Research helps to develop teachers and administrators with professional attitudes who embrace action progress and reform. Features: Balanced coverage of quantitative data collection and analysis techniques. Chapter 4 Data Collection Techniques covers collection techniques for the most frequently used qualitative and quantitative data, including observations, interviews, teacher-made tests, and standardized test data. Chapter 6 Data Analysis and Interpretation guides students through data analysis and provides techniques, coding guidelines, and examples for analyzing both quantitative and qualitative data. Additional coverage of mixed methods research has been added throughout the book. A focus on producing critical consumers of action research. A new chapter, Evaluating Action Research, Chapter 9, helps students become critical consumers of research. Included in Chapter 9 is an article from an action research journal that is analyzed using the new criteria for evaluating action research. Appendix A Action Research in Action contains an extended example and evaluation of an action research case study. An expanded coverage of ethics. Chapter 2 Ethics provides an expanded discussion of ethical guidelines and provides guidance for seeking and obtaining Institutional Review Board (IRB) approval. Integration to the MyEducationLab for Action Research website. The fourth edition of Action Research includes margin note integration with MyEducationLab for Action Research, a dynamic online learning environment that provides students with the opportunity to build a better understanding of action research through engagement with real products from the research process. A user-friendly format. Chapter objectives give students targets to shoot for as they read and study. Key Concept boxes provide students with an efficient review of important vocabulary and theory. Research in Action checklists provide students with guidelines to use in each stage of the action research process.

Using Action Research to Improve Instruction John E. Henning, Jody M. Stone, James L. Kelly, 2009-02 This comprehensive, easy-to-understand book provides a guide to action research methods grounded in sources of data. Its highly interactive format enables readers to more quickly design and carry out successful action research in the classroom. *Action Research in Teaching and Learning* Lin Norton, 2018-11-02 Practical and down-to-earth, the second edition of *Action Research in Teaching and Learning* is an ideal introduction to the subject, offering a distinctive blend of the theoretical and the practical, grounded firmly in the global higher education landscape. Written in an accessible style to build confidence, it provides easily adaptable practical frameworks, guidelines, and advice on research practice within a higher education context. The reader is guided through each stage of the action research process, from engaging with the critical theory to the practical applications, with the ultimate goal of providing a research study which is publishable. Supplemented by useful pedagogical research tools and exemplars of both qualitative and quantitative action research studies, this new edition features chapters engaging with

teaching excellence and analysing qualitative and quantitative research additions to the resources section and a new preface focusing more explicitly on the ever growing number of part time academics

Action Research in Teaching and Learning combines a theoretical understanding of the scholarly literature with practical applications and is an essential critical read for any individual teaching or undertaking action research

Studying Your Own School Gary L. Anderson, Kathryn Herr, Ann Sigrid Nihlen, 2007-03-06. While there are many books out there on action research, few immerse the reader so effectively in the nitty-gritty realities of the method while also pushing school practitioners to use inquiry to challenge an unacceptable status quo. This text should be read by all teachers and school leaders who care about empowering students and communities through action research. Ruth Johnson, Professor of Educational Administration, California State University, Los Angeles. Author, *Using Data to Close the Achievement Gap*. A highly accessible and informative book for K-12 educators and university graduate students. Provides very useful examples of what action research looks like when carried out in schools. This book has always been at the top of my recommended resources list. Ken Zeichner, Hoefs Bascom Professor of Teacher Education, University of Wisconsin-Madison. Discover the most empowering pathway to improved practice in education. Since the publication of the first edition of *Studying Your Own School*, practitioner action research has become an established professional development practice in schools and teacher education programs. While the fundamentals of practitioner action research have not changed, the challenges of large-scale reform have dramatically altered the context of teaching. This extensive revision of the best-selling book includes the latest investigative methods and reflects the current educational environment. New features of the second edition include: A Getting Started chapter on initial issues and considerations; More advice on crafting the research question and research design; Up-to-date information on political and ethical considerations; New examples of practitioner action research studies; A focus on promoting equity and social justice. Packed with updated examples to help orient the reader, this book is unique in providing

the theoretical and historical underpinnings of practitioner action research and all the how to information necessary for successful classroom application
