*Is the Fetus a Person?* Jean Reith Schroedel, 2000 As much a model for future research as a study of the status of the fetus this book offers an examination of one of the most divisive and complex issues of American life **BOOK JACKET** *The Mother of All Crimes* Emma Cave, 2018-01-18 This book considers the appropriate response of the criminal law with regard to women whose acts or omissions in pregnancy cause the death or injury of the child born alive It compares recent developments in English law in the light of the Human Rights Act 1998 with those in America which has seen an enormous growth in litigation over the last two decades In England and Wales the born alive rule is currently applied only to third parties who injure the fetus which is later born alive and dies as a result of these injuries In some American states a rule of similar origins has been extended so as to criminalize recent mothers whose acts or omissions in pregnancy caused injury or death to the resulting child The author examines the implications of the laws in both systems and also looks at the rights of the mother and child in relation to the obligations of the state to protect both of them **The Human Life Bill** United States. Congress. Senate. Committee on the Judiciary. Subcommittee on Separation of Powers, 1982 **The Human Life Bill: no distinctive title** United States. Congress. Senate. Committee on the Judiciary. Subcommittee on Separation of Powers, 1982 **The Philosophy of Childing** Christopher Phillips, 2016-05-17 Weaving together philosophy social science and neuroscience research personal anecdotes and dialogues *The Philosophy of Childing* takes a radically different approach to the traditional boundaries between childhood and adulthood to reveal how rather than lapse into adulthood we can achieve what the Greeks arete all around excellence when we look to children and youth as a lodestar for our development Childhood is our primary launching pad a time of life when learning is more intense than at any other when we gain the critical knowledge and skills that can help ensure that we remain adaptable This book weaves together the thinking of philosophers from across the ages who make the unsettling assertion that with the passage of time we are apt to shrink mentally emotionally and cognitively If we follow what has become an all too common course we denature our original nature which brims with curiosity empathy reason wonder and a will to experiment and understand and we regress our sense of who we are will become fuzzier and everyone in our orbit will pay a price Mounting evidence shows that we begin our lives with a moral intellectual and creative bang and in this groundbreaking heavily researched and highly engaging volume Christopher Phillips makes the provocative case that childhood isn't merely a state of becoming while adulthood is one of being as if we've arrived and reached the summit His life changing proposition is that if we embrace the defining qualities of youth we're not destined to become frail dispirited or unhinged we'll grow in a way defined by wonder curiosity imaginativeness playfulness and compassion in essence unlimited potential *Language and Value* Yi Jiang, Ernest Lepore, 2015-09-09 This volume represents the first substantial collaborative work from Chinese and Western scholars on philosophy of language We believe that recent developments in the Anglo American philosophy and Chinese philosophy of language not only suggest a

tableau of shared problems but also a number of similar methods and goals It is the goal of this volume to juxtapose these recent philosophical developments to illustrate the similarities between the traditions but also to spur common dialogue and hopefully efforts to jointly engage shared philosophical problems The issues engaged range from the role of cultural and biological factors in linguistic competence and language use to figurative speech in different languages the comparative study of work in semantics and philosophy and the role of language in establishing the legal and ethical norms and values Content and abstracts [www.protosociology.de](http://www.protosociology.de) **Williams V. essays and short pieces Just Think about It 2nd edn covers an amazingly wide range of topics that really made me think and reconsider my life my choices and our business as usual world So much of what we are bombarded with on social media and mass media so called op eds are just a lot of noise this author provides something very different These are thought pieces succinctly and logically presented for one s consideration I came away feeling like I d had a meaningful interaction and I really enjoyed and appreciated it Karen Siddall Just Think about It 1st edn covers a wide range of topics too numerous to mention and she has endeavoured to group them together by subject Some are only a page long others cover several pages and are more like essays but they will all make you think James M Fisher The Miramichi Reader Tittle s pieces are atypical of philosophical writing in the best ways of interest to non specialists yet instructive and profound yet entertaining Ron Cooper Professor of Philosophy a passionate stylistically engaging writer George **Doe V. Mundy** ,1974 **Living Words** Peter Ludlow,2014-05-08 Peter Ludlow shows how word meanings are much more dynamic than we might have supposed and explores how meanings are modulated changed even during the course of our everyday conversations When we engage with communicative partners we build micro languages on the fly languages that may be fleeting but which serve our joint interests Sometimes we sync up on word meanings without reflection but in many cases we debate the proper modulation of the meanings of our words Living Words explores the norms that govern the ways in which we litigate word meanings The resulting view is radical and Ludlow shows that it has far reaching consequences for our political and legal discourse and also for some of the deepest and most intractable puzzles that have gripped English language philosophy for the past 100 years including puzzles in the foundations of semantics epistemology and logic *Abortion* Laurence H.
