Isabel Y Fernando Los Reyes Catolicos Serie Media:

Serie Media Historia , Love, Religion and Politics in Fifteenth Century Spain Ian Macpherson, Angus MacKay, 2023-08-21 Ian Macpherson and Angus MacKay bring together versions in English of sixteen articles published in journals and festschrift volumes over the past two decades The articles are revised and selected from those which deal with questions of love religion and politics in the fifteenth century Kingdom of Spain Ian Macpherson is a linguist and literary critic who aims to set his judgements in a historical and social context and Angus MacKay a historian whose writings are informed by an awareness of the social context and literary production of the Spanish fifteenth century The two authors have collaborated on many occasions and the joint volume provides insights into the complex relationships between real life and imaginative writing in this turbulent period of Spanish history Catalogue of the Astor Library Astor Library, 1887

Catalogue of the Astor Library Charles Alexander Nelson, 1887 A Companion to the Queenship of Isabel la Católica Hilaire Kallendorf, 2022-11-14 The queenship of the first European Renaissance queen regnant never ceases to fascinate Was she a saint or a bigoted zealot A pious wife or the one wearing the pants Was she ultimately responsible for genocide A case has been made to canonize her Does she deserve to be called Saint Isabel As different groups from fascists to feminists continue to fight over Isabel as cultural capital we ask which if any of these recyclings are legitimate or appropriate Or has this figure taken on a life of her own Contributors to this volume Roger Boase David A Boruchoff John Edwards Emily Francomano Edward Friedman Cristina Guardiola Griffiths Michelle Hamilton Elizabeth Teresa Howe Hilaire Kallendorf William D Phillips Jr Nuria Silleras Fernandez Caroline Travalia and Jessica Weiss Portugal in a European Context Rodrigo da Costa Dominguez, Amélia Aguiar Andrade, 2023-01-01 Although Portugal was one of the first European states with stable borders the process of the making of a Portuguese fiscal state still remains to be studied in detail This volume brings together studies on the development of the Portuguese fiscal state within a comparative perspective in relation to other kingdoms across Europe such as Castile and Aragon England Tuscany the Papal States Holland and France in order to bring Portugal into the broader and comparative international debate about the development of the fiscal state As a very distinctive case Portugal remains understudied and underrepresented in the broader literature on the development of fiscal states There are relatively few studies on the building of a fiscal state in Portugal that are accessible to an international audience This book will make a fundamental contribution to this field which is still full of untapped potential It will combine the latest theory and comparative context with a detailed reconstruction of Portuguese state finance taking a longer chronological frame that follows its development from the medieval through to the early modern period It will also make the latest research from Portuguese scholars available to a wider international audience and will be of particular interest to researchers and students of financial and economic history **Juan de Flores** Joseph J. Gwara, 2005 Chronicle of Alfonso X Shelby Thacker, Jose Escobar, 2021-12-14 Alfonso X 1221 1284 reigned as king of Castile and Le n from 1252 until his death Known

to history as El Sabio the Wise or the Learned his appreciation for science and the arts led him to sponsor a number of books on the history of Spain since its Roman settlement Among them were the Cantigas de Santa Maria a collection of over four hundred poems exalting his favorite patron saint Mary and chronicles of all the kings of Castile and León Navarre Aragón and Portugal Alfonso X died before his own life could be written His was a reign fraught with political intrigue and double crosses almost constant war and equally constant diplomacy royal largesse and economic instability all of which led to open revolt and efforts by Alfonso's own son to depose the king It would be another sixty some years before King Alfonso XI would commission Fernán Sánchez de Valladolid to write Cronica de Alfonso X to memorialize his great grandfather As Alfonso XI's trusted counselor ambassador diplomat and legist Fernán was an understandable choice but in the centuries since his convoluted prose has proven extremely difficult extremely difficult for scholars Chronicle of Alfonso X is the first and only translation of the king's history The original clumsy Castilian of Fernán Sánchez has now been transformed into literate and engaging English **La casa. Historia de una idea** Witold Rybczynski, 1989-10-10 *La Edad Media comparada con los tiempos modernos en orden a la ilustración y política* Jacinto María Martínez y Sáez (Obispo de La Habana.), 1873

Legitimizing the Queen Cristina Guardiola-Griffiths, 2011 Legitimizing the Queen deals with a genre particular to the Middle Ages the specula principum mirror of prince Its importance as an object of study may be understood in light of the political instability that wracked the Castilian fifteenth century The many works written for and dedicated to Isabel I of Castile depict her kingdom as a shipwrecked boat a wayward realm and a land of bankrupt people These works suggest the kingdom's need for redemption through the strong leadership of the Catholic monarchs These largely propagandistic works were designed to garner power and once maintained further Isabel's agenda This book frames the concept of sovereignty from the theoretical perspective of the speculum principum dedicated to her It offers a Bourdieuan approach to the more literary specula texts used to legitimize and uphold Isabel's power This book reveals propagandistic qualities promoting the ideology necessary to legitimize and support Isabel's claims to the throne Written primarily between 1468 and 1493 these works are literary artifacts that mark the rise to power of a female sovereign The study discusses the various strategies of legitimation employed by these propagandists whose works circulated within noble and royal courts and presumably extended into Castile as justification for her sovereign claim to the throne By analyzing fifteenth century texts from within a modern critical framework this book reexamines Isabel's position as queen and contributes to the understanding of her shared sovereignty in a period political and social evolution The Gibraltar Crusade Joseph F. O'Callaghan, 2011-03-17 The epic battle for control of the Strait of Gibraltar waged by Castile Morocco and Granada in the late thirteenth and early fourteenth centuries is a major but often overlooked chapter in the history of the Christian reconquest of Spain After the Castilian conquest of Seville in 1248 and the submission of the Muslim kingdom of Granada as a vassal state the Moors no longer loomed as a threat and the reconquest seemed to be over Still in the following century the Castilian kings prompted

by ideology and strategy attempted to dominate the Strait As self proclaimed heirs of the Visigoths they aspired not only to reconstitute the Visigothic kingdom by expelling the Muslims from Spain but also to conquer Morocco as part of the Visigothic legacy As successive bands of Muslims over the centuries had crossed the Strait from Morocco into Spain the kings of Castile recognized the strategic importance of securing Algeciras Gibraltar and Tarifa the ports long used by the invaders At a time when European enthusiasm for the crusade to the Holy Land was on the wane the Christian struggle for the Strait received the character of a crusade as papal bulls conferred the crusading indulgence as well as ancillary benefits The Gibraltar Crusade had mixed results Although the Castilians seized Gibraltar in 1309 and Algeciras in 1344 the Moors eventually repossessed them Only Tarifa captured in 1292 remained in Castilian hands Nevertheless the power of the Marinid dynasty of Morocco was broken at the battle of Salado in 1340 and for the remainder of the Middle Ages Spain was relieved of the threat of Moroccan invasion While the reconquest remained dormant during the late fourteenth and early fifteenth centuries Ferdinand and Isabella conquered Granada the last Muslim outpost in Spain in 1492 In subsequent years Castile fulfilled its earlier aspirations by establishing a foothold in Morocco Historia general de España desde los tiempos primitivos hasta la muerte de Fernando VII Modesto Lafuente, Modesto Lafuente y Zamolloa, 1883 Historia general de España desde los tiempos primitivos hasta la muerte de Fernando VII por Modesto Lafuente continuada desde dicha epoca hasta nuestros dias Lafuente, 1883 **The Grove Encyclopedia of Medieval Art and Architecture** Colum Hourihane, 2012 This volume offers unparalleled coverage of all aspects of art and architecture from medieval Western Europe from the 6th century to the early 16th century Drawing upon the expansive scholarship in the celebrated Grove Dictionary of Art and adding hundreds of new entries it offers students researchers and the general public a reliable up to date and convenient resource covering this field of major importance in the development of Western history and international art and architecture *Bulletin* Boston Public Library, 1875 Quarterly accession lists beginning with Apr 1893 the bulletin is limited to subject lists special bibliographies and reprints or facsimiles of original documents prints and manuscripts in the Library the accessions being recorded in a separate classified list Jan Apr 1893 a weekly bulletin Apr 1893 Apr 1894 as well as a classified list of later accessions in the last number published of the bulletin itself Jan 1896 **Library of Congress Catalogs** Library of Congress, 1955 **La Gobernación de la Monarquía de España** Feliciano Barrios, 2015-12-01 Esta obra de Feliciano Barrios catedr tico de Historia del Derecho y de las Instituciones de la Universidad de Castilla La Mancha y reconocido especialista en la materia que nos ocupa se adentra en el estudio de la monarqu a hisp nica bajo los Austrias desde su doble condici n de Imperio universal y cat lico Como pieza central de tan vasto aparato y titular de una corona extendida sobre dos mundos el rey es analizado en su simbolog a diversa armas reales insigne Orden del Tois n de Oro sello real y firma regia Pero la figura de monarca se convierte a su vez en un poderoso im n que genera un espacio para su desenvolvimiento una corte y un sistema de gobierno El espacio es Madrid el Real Alc zar y otros sitios reales como el Buen

Retiro de los que el autor efectúa una sugerente evocación como puntos de encuentro de pleiteantes grandes secretarios y consejeros. La corte aparece marcada en la monarquía universal por un complejo entramado de precedencias, procesiones, bodas, bautismos y exequias reales donde tanto los acontecimientos sacros como profanos son la excusa para mostrar un boato, reflejo del poder de esa monarquía. Finalmente el autor afronta el análisis del sistema de gobierno polisinodial desde una perspectiva general con el estudio de los conflictos competenciales entre los Consejos de los diferentes reinos e instituciones y de los mecanismos regios de control pasando a continuación a tratar el significado y posición de cada uno de ellos de sus principios, reglas y ritos para la emisión de las consultas. **The Transatlantic Las Casas** Rady

Roldán-Figueroa, David T. Orique, O.P., 2022-11-14. *The Transatlantic Las Casas* demonstrates the vitality of Lascasian studies. An impressive ensemble of scholars spanning the fields of Latin American studies, philosophy, theology, anthropology, law, literary criticism, and ethnohistory illuminate the complex intellectual web surrounding the controversial figure of Bartolomé de las Casas.
