Rethinking Authority in the Carolingian Empire Rutger Kramer,2025-10-01 By the early ninth century the responsibility for a series of social religious and political transformations had become an integral part of running the Carolingian empire This became especially clear when in 813 Louis the Pious and his court seized the momentum generated by their predecessors and broadened the scope of these reforms ever further These reformers knew they represented a movement greater than the sum of its parts the interdependence between those wielding imperial authority and those bearing responsibility for ecclesiastical reforms was driven by comprehensive yet still surprisingly diverse expectations Taking this diversity as a starting point this book takes a fresh look at the optimistic first decades of the ninth century Extrapolating from a series of detailed case studies rather than presenting a new grand narrative it offers new interpretations of contemporary theories of personal improvement and institutional correctio and shows the self awareness of its main instigators as they pondered what it meant to be a good Christian in a good Christian empire The Resources of the Past in Early Medieval Europe Clemens Gantner,Rosamond McKitterick,Sven Meeder,2015-02-05 This volume examines the use of the textual resources of the past to shape cultural memory in early medieval Europe On the Formation of the Clergy Bleed

Evans, 2015-12-22 From the earliest centuries of the church asceticism and the contemplative life have been profoundly important aspects of western Christianity And in assessing the glories of western civilization perhaps the best place to start is within medieval monastic institutions not outside of them For while monasteries withdrew from the main currents of their societies until the rise of universities in the 12th century they provided fertile soil and sanctuary to the liberal arts and sciences as well as those who wanted to spend their lives focused upon God They became the driving cultural forces of Europe nurturing education music manuscript illumination art and history agriculture animal husbandry all in addition to spiritual guidance In this first general history of monasticism since 1900 Andrea Dickens explores the cloistered communities and individuals who have aspired to the ascetic ideal in their religious life assessing the impact they have made on the wider church and its practices She discusses some of the best known names in Christian history including Cuthbert Columba Hilda of Whitby Peter Abelard and Thomas Merton and traces the monastic impulse from its beginnings in the Egyptian desert through the Rule of St Benedict Cluny s foundation in 910 the austerity of the Cistercians the legacy of women s houses the critique of Luther and Calvin Trappists and Catholic reform up to the present day ecumenical Taize community Offering a lively and informed overview of western monasticism the book will be essential reading for students of history and religion as well as the lay reader The Eucharist: Mystery of Presence, Sacrifice, and Communion Lawrence Feingold, 2018-04-01 The Eucharist Mystery of Presence Sacrifice and Communion explores the three ends of the Sacrament of Sacraments God s true presence His redemptive sacrifice and spiritual nourishment through communion with Him In this follow up to his groundbreaking work Faith Comes From What Is Heard Lawrence Feingold constructs a biblical vision of the Eucharist from its prefigurement in the Old Testament to its fulfillment in the New and presents the Eucharistic theology of the Church

Devotional Refrains in Medieval Latin Song Mary Channen Caldwell, 2022-03-31 Throughout medieval Europe male and female religious communities attached to churches abbeys and schools participated in devotional music making outside of the chanted liturgy Newly collating over 400 songs from primary sources this book reveals the role of Latin refrains and refrain songs in the musical lives of religious communities by employing novel interdisciplinary and analytical approaches to the study of medieval song Through interpretive frameworks focused on time and temporality performance memory inscription and language each chapter offers an original perspective on how refrains were created transmitted and performed Arguing for the Latin refrain s significance as a marker of form and meaning this book identifies it as a tool that communities used to negotiate their lived experiences of liturgical and calendrical time to confirm their communal identity and belonging to song communities and to navigate relationships between Latin and vernacular song and dance that emerge within their multilingual contexts

Metaphors of Eucharistic Presence Stephen R. Shaver, 2021-12-14 One of the most challenging questions for Christian ecumenical theology is how the relationship between the eucharistic bread and wine and Jesus Christ s body and blood can be appropriately described This book takes a new approach to controverted questions of eucharistic presence by drawing on cognitive linguistics Arguing that human cognition is grounded in sensorimotor experience and that phenomena such as metaphor and conceptual blending are basic building blocks of thought the book proposes that inherited models of eucharistic presence are not necessarily mutually exclusive but can serve as complementary members of a shared ecumenical repertoire The central element of this repertoire is the motif of identity grounded in the Synoptic and Pauline institution narratives The book argues that the statement The eucharistic bread and wine are the body and blood of Christ can be understood both as figurative and as true in the proper sense thus resolving a church dividing dichotomy The identity motif is complemented by four major non scriptural motifs representation change containment and conduit Each motif with its entailments is explored in depth and suggestions for ecumenical reconciliation in both doctrine and practices are offered The book also provides an introduction to cognitive linguistics and offers suggestions for further reading in that field

Discovering Pope Francis Brian Y Lee, Thomas L Knoebel, 2019-08-27 2020 Association of Catholic Publishers third place award in theology 2020 Catholic Press Association third place award in Pope Francis books The dangerous tendency to reduce theological positions to political ones has always fueled divisions in the Church and it plagues debates surrounding Pope Francis s teaching today This collection of essays was born of a landmark international symposium designed to promote theological understanding by contextualizing the thought of Pope Francis from his understanding of history to his theology of mission within important theological conversations rarely heard in the US Catholic Church Its contributors demonstrate decisively that Pope Francis s magisterium is the fruit of a profound and

distinctive yet deeply Catholic intellectual engagement with the theological and ecclesial traditions of the Church
