Muslims of America Yvonne Y Haddad, Farid Senzai, Jane I Smith, 2009-02-26 Especially since the events of 9 11 many have become concerned about what kind of teaching is going on behind the walls of Muslim schools in America and whether such teaching might serve to foster the seditious purposes of Islamist extremism The essays collected in this volume look behind those walls and discover both efforts to provide excellent instruction following national educational standards and attempts to inculcate Islamic values and protect students from what are seen as the dangers of secularism and the compromising values of American culture Also considered here are other dimensions of American Islamic education and the ways in which Muslims are rising to the task of educating the American public in the face of increasing hostility and prejudice This timely volume is the first dedicated entirely to the neglected topic of Islamic education in this country *Between the Middle East and the Americas* Ella Habiba Shohat, Evelyn Azeeza Alsultany, 2013-02-12 Between the Middle East and the Americas The Cultural Politics of Diaspora traces the production and circulation of discourses about the Middle East across various cultural sites against the historical backdrop of cross Atlantic Mahjar flows The book highlights the fraught and ambivalent situation of Arabs Muslims in the Americas where they are at once celebrated and demonized integrated and marginalized simultaneously invisible and spectacularly visible The essays cover such themes as Arab hip hop's transnational imaginary gender sexuality and the Muslim digital diaspora patriotic drama and the media's War on Terror the global negotiation of the Prophet Mohammad cartoons controversy the Latin American paradoxes of Turcophobia Turcophilia the ambiguities of the

bellydancing fad French and American commodification of Rumi spirituality the reception of Iranian memoirs as cultural domestication and the politics of translation of Turkish novels into English Taken together the essays analyze the hegemonic discourses that position the Middle East as a consumable exoticized object while also developing complex understandings of self representation in literature cinema TV music performance visual culture and digital spaces Charting the shifting significations of differing and overlapping forms of Orientalism the volume addresses Middle Eastern diasporic practices from a transnational perspective that brings postcolonial cultural studies methods to bear on Arab American studies Middle Eastern studies and Latin American studies Between the Middle East and the Americas disentangles the conventional separation of regions moving beyond the binarist notion of here and there to imaginatively reveal the thorough interconnectedness of cultural geographies

A Nation Can Rise No Higher Than Its Women Bayyinah S. Jeffries, 2014-04-04 A Nation Can Rise No Higher Than Its Women African American Muslim Women in the Movement for Black Self Determination 1950 1975 challenges traditional notions and interpretations of African American particularly women who joined the Original Nation of Islam during the Civil Rights Black Power era This book is the first major investigation of the subject that engages a wide scope of women from The Nation and utilizes a wealth of primary documents and personal interviews to reveal the importance of women in this community Jeffries reveals that women were respected in the movement and maintained a very clear and often sought after voice in the advancement of the Original Nation of Islam A Nation Can Rise No Higher Than Its Women replaces the typical portrait of the subservient and irrelevant African American Muslim woman with a far more accurate picture of their integral leadership and substantial contributions to the rise of Islam and black consciousness in the self determination movement in the United States and beyond during the Civil Rights Black Power era

Travel and the Pan African Imagination Tracy Keith Flemming, 2021-09-02 Travel and the Pan African Imagination explores the African Atlantic world as a productive theater or space where modernity racialized dominance and racialized resistance took form The book stresses the importance of placing three Atlantic figures the Charleston South Carolina based armed resistance leader Denmark Vesey the West African emigration advocate Edward Wilmot Blyden and the Christian missionary and teacher in Liberia as well as the United States Alexander Crummell within

an Atlantic context and as African world community figures between the late eighteenth and early twentieth centuries The book also examines the religious origins of Black Power ideology and modern Pan Africanism as products of the intense dialogue within the African world community about concepts of modernity progress and civilization Tracy Keith Flemming identifies how travel and social mobility led to the generation of an ever more complex and dynamic Atlantic world and of a fluid and adaptive African world community imagination for those figures who were forced to operate within and against a racially framed universe The vexing social position and symbolic figure of the African was central to the dilemmas facing the racialized imagination of African world community figures and the discipline of Africology

Feminism, Tradition and Change in Contemporary Islam Shehnaz Haqqani, 2024-10-17 The Islamic tradition has always been flexible changing over time and constantly adapting to the different societies Muslims find themselves in Few Muslims today would abide by the fatwa against the printing press under the Ottomans Moreover although Islamic law legislates for slavery and child marriage only a vanishing minority of Muslims consider these practices acceptable today and some will even argue that Islam never permitted them Yet some issues like the prohibition on female led prayer and female interfaith marriage seem curiously impervious to change Why is that Through a mixture of interviews with ordinary Muslims in Texas and critical analysis of contemporary and historical scholarship Shehnaz Haqqani demonstrates the gendered dimensions of change and negotiation in Islamic tradition She argues that a reliance on a mostly male scholarly consensus means that the tradition preserves male privilege at the expense of justice for Muslim women

Neighbors Deanna Ferree Womack, 2020-03-17 Named one of the Top 10 Books of the Year in 2020 by the Academy of Parish Clergy For a long time American Christians have been hearing a story about Islam It s a story about conflict and hostility about foreigners and strangers At the heart of this story is a fundamental incompatibility between the two religions going all the way back to their original encounters According to that story the only valid Christian response to Islam is resistance But it s time to tell a different and truer story Christians and Muslims have not always fought or lived in fear of each other Christian communities in majority Muslim countries have coexisted with their Muslim neighbors for centuries More importantly Muslims have been part of the American story from its beginning And like their Christian neighbors Muslims want to make the community in which they live a better place for all citizens In *Neighbors* Deanna Ferree Womack lays the groundwork for members of the two religions to understand converse and cooperate with each another With models for cultivating empathy and interfaith awareness Christians can move from neighborly intention to real dialogue and common action with Muslims in the United States Ideal for individual or group study the book includes discussion guide for group study with links to video clips a timeline of the first Muslim communities and a glossary of Arabic terms related to Islam

Black Star, Crescent Moon Sohail Daulatzai, 2012 Linking discontent and unrest in Harlem and Los Angeles to anticolonial revolution in Algeria Egypt and elsewhere Black leaders in the United States have frequently looked to the anti imperialist movements and antiracist rhetoric of the Muslim Third World for

inspiration Daulatzai maps the shared history between Black Muslims Black radicals and the Muslim Third World showing how Black artists and activists imagined themselves not as national minorities but as part of a global majority connected to larger communities of resistance From publisher description The Law Applied Peri Bearman, Bernard G. Weiss, Wolfhart Heinrichs, 2008-01-30 A sea change has taken place in Islamic legal studies This book both reflects and contributes to that change Traditionally scholars in this field have tended to focus on law as a body of rules and doctrines as fiqh This volume is more interested in how the law has been applied to concrete situations It looks at judicial decision making legal responses fatwas customary practices the actions of public inspectors cultural contexts and theological discourses as well as modern legal reform and constitutional development Reflecting the interests of a new academic generation The Law Applied offers an ambitious and textured account of how Islamic law works in practice in the social life of the contemporary world *Thin Description* John L. Jackson Jr., 2013-11-04 The African Hebrew Israelites of Jerusalem are often dismissed as a fringe cult for their beliefs that African Americans are descendants of the ancient Israelites and that veganism leads to immortality But John L. Jackson questions what fringe means in a world where cultural practices of every stripe circulate freely on the Internet In this poignant and sophisticated examination of the limits of ethnography the reader is invited into the visionary sometimes vexing world of the AHIJ Jackson challenges what Clifford Geertz called the thick description of anthropological research through a multidisciplinary investigation of how the AHIJ use media and technology to define their public image in the twenty first century Moving beyond the modest witness of nineteenth century scientific discourse or the thick descriptions of twentieth century anthropology Jackson insists that Geertzian thickness is impossible especially in a world where the anthropologist s subjects craft their own self ethnographies and critically consume the ethnographer s offerings Taking as its topic a group situated along the fault lines of several diasporas African American Jewish Thin Description provides an account of how race religion and ethnographic representation must be understood anew in the twenty first century lest we reenact old mistakes in the study of black humanity **Muslims, Christians, and the Challenge of Interfaith Dialogue** Jane I. Smith, 2007-10-11 Christian Muslim dialogue going on in America for many decades has become more intentional and serious since the events of September 11 2001 This volume looks at the history of encounter between the two religions the types of dialogue that are taking place both locally and nationally and the hope that conversation brings for better interfaith understanding No book has been written on this topic before The book combines the history of Christian Muslim relations the rise of Islam in America with an emphasis on groups and individuals who have participated in dialogue and different kinds of dialogue **Shi'ism in America** Liyakat Nathani Takim, 2009-09-01 An authoritative introduction to the Shi i community in America tracing its history composition and the development of American Shi i identity There are over two million Shi is Muslims in the United States With community roots going back sometimes close to one hundred years Shi is can be found in major cities like New York Los Angeles Chicago Washington and Dearborn Michigan Early in the century Shi is and Sunnis

sometimes arrived at the same time worshipped together shared similar experiences and confronted the same challenges despite their sectarian differences In this comprehensive study Liyakat Nathani Takim provides an in depth account of the American Shi i experience Both tracing the early history and illuminating the more recent past with surveys and interviews Takim explores the life of this community Filling an important scholarly gap he also demonstrates how living in the West has impelled the Shi i community to grapple with the ways in which Islamic law may respond to the challenges of modernity Shi ism in America provides a much needed overview of the history of this United States religious community from religious cultural and political institutions to inter group relations to the experience of African American Shi is
