Diane Apostolos-Cappadona, 2017-11-06 In *Religion and the Arts: History and Method* Diane Apostolos Cappadona presents an overview of the 19th century origins of this discrete field of study and its methodological journey to the present day through issues of repatriation, museum exhibitions and globalization. Apostolos Cappadona suggests that the fluidity and flexibility of the study of religion and the arts has expanded like an umbrella since the 1970s and the understanding that art was simply a visual exegesis of texts to now support the study of material, popular and visual culture as well as gender. She also delivers a careful analysis of the evolution of thought from traditional iconographies to the transformations once scholars were influenced by response theory and challenged by globalization and technology. *Religion and the Arts: History and Method* offers an indispensable introduction to the questions and perspectives essential to the study of this field. [Women in Agriculture](#)

Ashok Khandelwal, Shipra Deo, 2023-12-01 The lives of women in rural India cannot be visualized without agriculture and allied activities. As per census 2011 figures, four out of five women workers in rural India work as agriculture workers, as owner cultivators or as wage workers. This research monograph is about women farmers, women who are engaged primarily in the cultivation of vegetables and fruits and predominantly belong to small and marginal land holdings households. It is the outcome of a baseline survey done in the year 2010-11 in three districts of Uttar Pradesh as part of an action intervention project. Based on the survey findings, it discusses the structural and other factors that promote and perpetuate gender inequality and prevent women from realizing their full potential as farmers. It presents the struggles, positive experiences and practices, explores possible interventions at different levels for different stakeholders and suggests a framework keeping the women's agency empowerment at center stage while simultaneously enhancing their wellbeing.

Core Competencies of Relational Psychoanalysis Roy E. Barsness, 2017-07-20 *Core Competencies of Relational Psychoanalysis* provides a concise and clearly presented handbook for those who wish to study, practice and teach the core competencies of Relational Psychoanalysis, offering primary skills in a straightforward and useable format. Roy E. Barsness offers his own research on technique and grounds these methods with superb contributions from several master clinicians, expanding the seven primary competencies: therapeutic intent, therapeutic stance, attitude, analytic listening, attunement, working within the relational dynamic, the use of patterning and linking, the importance of working through the inevitable enactments and ruptures inherent in the work, and the use of courageous speech through disciplined spontaneity. In addition, this book presents a history of Relational Psychoanalysis, offers a study on the efficacy of Relational Psychoanalysis, proposes a new relational ethic and attends to the importance of self care in working within the intensity of such a model. A critique of the model is offered; issues of race and culture and gender and sexuality are addressed as well as current research on neurobiology and its impact in the development of the model. The reader will find the writings easy to understand and accessible and immediately applicable within the therapeutic setting. The practical emphasis of this text will also offer non-analytic clinicians a window into the mind of the analyst while increasing the settings and populations in which this model

can be applied and facilitate integration with other therapeutic orientations Core Competencies of Relational Psychoanalysis is inspired by Barsness students he was motivated to create a primary text that could assist them in understanding the often complex and abstract models of Relational Psychoanalysis Relevant for graduate students and novice therapists as well as experienced clinicians supervisors and professors this textbook offers a foundational curriculum for the study of Relational Psychoanalysis presents analytic technique with as clear a frame and purpose as evidenced based models and serves as a gateway into further study in Relational Psychoanalyses
