War Office, 1937 *BLS Report* , 1953 *Microfranchising* Nicolas Sireau, 2017-09-08 It is increasingly clear that fifty years of international development have done little to reduce poverty in Africa Indeed more and more academics and practitioners are highlighting the detrimental effect of traditional development as carried out by international agencies and NGOs which often leads to dependency inefficiency waste and poor governance Yet there is a new movement that is surging ahead in its attempt to reduce poverty and generate wealth in Africa microfranchising Set up by pioneering organizations such as VisionSpring and HealthStore microfranchising is based on one of the most successful market based models in Western economies franchising From McDonald s to Coca Cola franchising has proven itself to be an effective and replicable way of scaling up a business rapidly in the Western context It is only recently that members of the growing body of social entrepreneurs have turned to the franchise model as one of the responses to Africa s endemic economic stagnation And the results have been inspiring instead of the dependency generated by traditional charity development projects these new social capitalists have generated enterprise and self sustainability in the most challenging environments of rural Africa This long needed book looks at the growth in microfranchising as a tool to generate wealth among poor communities in Africa The book traces the evolution of the concept of microfranchising from its foundation in Western models to its implementation in African countries today It provides practical steps from the world s leading experts on how to set up a microfranchise from recruiting franchisees to building a brand and a supply chain It gives case studies of successful microfranchises told by the enterprises themselves It continues with a theoretical analysis of the place of microfranchising within global social entrepreneurship It ends with a look at the future for microfranchising with recommendations for development Edited by the former CEO of SolarAid which created the Sunny Money microfranchise the book provides a ground breaking set of case studies and analysis of microfranchising for development It brings together academics and practitioners to provide context analysis and practical advice Indeed it provides the theory the practical advice and the case studies to guide any entrepreneur NGO business or government interested in setting up their own

microfranchise scheme *Cost Accounting for Shared IT Infrastructures* Reinhard Brandl,2008-08-21 During the past few years determining the value of IT has ranked high on the agenda of IT managers and Chief Information Officers CIOs The rather broad and abstract topic has been intensively discussed in the Information Systems literature for many years It turns into a very tangible problem in the field of IT cost accounting Nowadays corporate information systems are distributed systems A detailed measurement of resource demands of IT services on a distributed IT infrastructure and respective accounting and cost allocation turns out to be very expensive and impractical in most cases The large proportion of indirect costs and the difficulty of finding adequate allocation rates are a significant problem in practice regularly leading to free rider problems This problem has largely been ignored in the academic literature so far Dr Brandl proposes a method to derive estimators for the resource demand of service requests in a distributed IT infrastructure This estimator is based on a set of load tests and respective measurements as they are often performed during the deployment phase of new information systems Cost allocation keys can now be determined based on the number of service invocations per user or per department and the respective estimators While these measurements provide a lean method for the determination of usage based cost allocation keys it is not obvious that the estimators have sufficient accuracy in particular concerning different types of services and volatile workloads **Catalog of Copyright Entries** Library of Congress.
