Lions Calendar Multilingual Edition:

Multilingual Digital Storytelling Jim Anderson, Vicky Macleroy, 2016-03-02 Classrooms are increasingly multicultural in their social composition and students are increasingly connected through digital media to local and global networks. However, pedagogy has failed to take full advantage of the opportunities these resources represent. Multilingual Digital Storytelling draws attention to the interfaces between learner engagement, creativity and critical digital literacy as well as addressing the multilingual within the multiliteracies framework. Addressing a significant gap in the field of multiliteracies by focusing on multilingualism, this book explores new digital spaces for language learning and methods of extending understandings of youth literacy in an increasingly interconnected world. Drawing on innovative and multi-site research projects based in mainstream and community schools in London and overseas, this book discusses how young people become engaged creatively and critically with literacy by demonstrating how digital storytelling can be used as a tool for language development. The book begins by considering linguistic, cultural, cognitive and social dimensions of language learning from a theoretical perspective, whilst the second part focuses on practical case studies that reflect and illustrate these theoretical principles. Offering a powerful new perspective on multiliteracies pedagogy, Multilingual Digital Storytelling will appeal to researchers and academics in the fields of education, applied linguistics, sociology and youth and community studies. It will also be an invaluable resource for teachers, teacher educators, curriculum planners and policymakers. **Multilingual**, 2007

Subtitling Jorge Díaz Cintas, Aline Remael, 2020-12-29 Subtitling: Concepts and Practices provides students, researchers and practitioners with a research-based introduction to the theory and practice of subtitling. The book, inspired by the highly successful Audiovisual Translation Subtitling by the same authors, is a new publication reflecting the developments in practice and research that mark subtitling today while considering the way ahead. It supplies the core concepts that will allow its users to acquaint themselves with the technical, linguistic and cultural features of this specific yet extremely diverse form of audiovisual translation and the many contexts in which it is deployed today. The book offers concrete subtitling strategies and contains a wealth of examples in numerous languages for dealing with specific translation problems. State-of-the-art translation technologies and their impact on the profession are explored along with a discussion of the ways in which they cater for the socio-political, multicultural and multilingual challenges that audiovisual productions and their translations must meet today. A truly multimedia package, Subtitling: Concepts and Practices comes with a companion website which includes a wide range of exercises with answer keys, video clips, dialogue lists, a glossary of concepts and terminology used in the industry and much more. It also provides access to a professional desktop subtitle editor, Wincaps Q4, and a leading cloud-based subtitling platform, OONA. **Dear Dorothy** Nicolas Slonimsky, 2012 The fascinating letters of conductor-author Nicolas Slonimsky, 1894-1995, to his wife, sharing his adventures as he traveled around the world to conduct new American music.
