The Science of Housework Ann Oakley, 2024-07-25 In an era of pandemic infection the importance of hygiene at home and in public spaces has never been greater This book recaptures the buried history of the household science movement including domestic science teaching public health higher education for women and the scientific content and aims of domestic science courses It explores how it was viewed in the context of new public health concerns and as a driver to opening higher education to women raising questions about the legacy and modern relevance of the household science movement

The Permaculture Handbook Peter Bane, 2012-06-01 Permanent agriculture abundance by design The wealth of practical knowledge in The

Permaculture Handbook is a welcome addition to North America's canon of books on permaculture design and will serve other regions as well. Peter Bane's broad and well-tested experience in ecological living will guide homeowners, gardeners, and small farmers toward designing and living in lushly productive and harmonious landscapes. Toby Hemenway, author of *Gaia's Garden: A Guide to Home Scale Permaculture*, The Permaculture Handbook is a step-by-step beautifully illustrated guide to creating resilient and prosperous households and neighborhoods complemented by extensive case studies of three successful farmsteads and market gardens. This comprehensive manual casts garden farming as both an economic opportunity and a strategy for living well with less money. It shows how by mimicking the intelligence of nature and applying appropriate technologies such as solar and environmental design, permaculture can create an abundance of fresh, nourishing local produce. Reduce dependence on expensive, polluting fossil fuels. Drought-proof our cities and countryside. Convert waste into wealth. Permaculture is about working with the earth and with each other to repair the damage of industrial overreach and to enrich the living world that sustains us. The Permaculture Handbook is the definitive practical North American guide to this revolutionary practice and is a must-read for anyone concerned about creating food security, resilience, and a legacy of abundance rather than depletion. *A Nation of Farmers* Sharon Astyk, Aaron Newton, 2009-05-01 Provides information on ways to solve the food crisis in the United States by creating a local food supply system. Education of Cancer Healing Vol. VII - Heretics Peter Havasi, 2012 The Ecotechnic Future John Michael Greer, 2009-10-01 How to survive and thrive in the post-industrial age. In response to the coming impact of peak oil, John Michael Greer helps us envision the transition from an industrial society to a sustainable ecotechnic world, not returning to the past but creating a society that supports relatively advanced technology on a sustainable resource base. Fusing human ecology and history, this book challenges assumptions held by mainstream and alternative thinkers about the evolution of human societies. Human societies like ecosystems evolve in complex and unpredictable ways, making it futile to try to impose rigid ideological forms on the patterns of evolutionary change. Instead, social change must explore many pathways over which we have no control. The troubling and exhilarating prospect of an open-ended future, he proposes, requires dissensus, a deliberate acceptance of radical diversity that widens the range of potential approaches to infinity. Written in three parts, the book places the present crisis of the industrial world in its historical and ecological context; in part one, part two explores the toolkit for Ecotechnic Age, and part three opens a door to the complexity of future visions. For anyone concerned about peak oil and the future of the industrial society, this book provides a solid analysis of how we got to where we are and a practical toolkit to prepare for the future. **Handbook on the Human Impact of Agriculture** Harvey S. James, Jr., 2021-06-25 This timely Handbook synthesizes and analyzes key issues and concerns relating to the impact of agriculture on both farmers and non-farmers. With a unique focus on humans rather than animals or the environment, the book is interdisciplinary and international in scope, with contributions from sociologists, economists, anthropologists, and geographers providing case studies and examples from all six populated

continents **Toilets That Make Compost: Low-cost, sanitary toilets that produce valuable compost for crops in an African context** P. Morgan, 2007 *Transforming from Consumer to Producer in 90 Days* Darryl L. Wortham, 2011-08-10

FOREWORD The core concept is not just saving money but saving time and energy as well. These savings are multiplied together giving you more money to invest. To summarize, I created the equation $ET \times M2 = INVEST$ in which saving Money, Energy, and Time (ET) are multiplied to generate More Money (M2) to INVEST. This equation is fundamental to your success. You must be prepared to take action to start having enough money to accomplish your goals, to stop living paycheck to paycheck, and to retire early. If you are on course to make the same income as last year or worse, facing declining take-home pay because of ever-increasing taxes, medical costs, and a declining economy, don't give up. Saving money, energy, and time will generate more money to invest, creating real income and wealth. Transforming you from consumer to producer. You must expand yourself personally as well as enhance your inner and micro economics. Rather than growing a mega company's revenue or the financial fortitude of millionaires' pockets, you are going to grow your own individual savings account, retirement plan, and children's college funds. This book is a guide to help you create a path and roadmap to a life of saving money, reducing debt, living efficiently, and creating wealth by investing within a reasonable timeframe. Together we will examine four major building blocks that inspire and accelerate behavioral changes: 1. Why and how to change your behavior and lifestyle; 2. How to save money, energy, and time; 3. How to invest your money, energy, and time savings to improve your present situation and build for the future; 4. How to create and implement a transformation plan. Progressive ideas and hilarious, cheap strategies are also detailed. These are necessary to exceed your personal and financial goals. I want you to be thrilled about life, saving money for a brighter future, and early retirement while having fun at the same time. **The Good**

Life Lab Wendy Jehanara Tremayne, 2025-04-08 Tired of the high-pressure life they lead in New York City, Wendy Jehanara Tremayne and her husband migrate to Truth or Consequences, New Mexico, where they build, invent, forage, and grow all they need for themselves. Full of quirky stories and imaginative illustrations, this inspiring memoir chronicles the off-the-grid adventures of the Tremaynes. Touchingly personal while also providing practical tutorials on making your own biofuel, building an efficient house, and gardening sustainably, *The Good Life Lab* will encourage you to chase your dreams of self-sufficiency. **The Diary of a Bookseller** Shaun Bythell, 2018-09-04 A WRY AND HILARIOUS ACCOUNT OF LIFE AT A

BOOKSHOP IN A REMOTE SCOTTISH VILLAGE Among the most irascible and amusing bookseller memoirs I've read, Dwight Garner, *The New York Times*, *Warm*, witty, and laugh-out-loud funny. *The Daily Mail*: *The Diary of a Bookseller* is Shaun Bythell's funny and fascinating memoir of a year in the life at the helm of The Bookshop in the small village of Wigtown, Scotland, and of the delightfully odd locals, unusual staff, eccentric customers, and surreal buying trips that make up his life there as he struggles to build his business and be polite. In this wry and hilarious diary, he tells us the trials and tribulations of being a small businessman, of learning that customers can be um, eccentric, and of wrangling with his own staff of oddballs. And

perhaps none are quirkier than the charmingly cantankerous bookseller Bythell himself turns out to be Slowly with a mordant wit and keen eye Bythell is seduced by the growing charm of small town life despite or maybe because of all the peculiar characters there
