An Annotated Bibliography of Nineteenth-century Grammars of English Manfred Görlach, 1998-01-01. In the 19th century, education became accessible to much wider circles of society in a great number and variety of schools, and the teaching of grammar came to be obligatory from 1870/72 with the advent of general education. Whereas these general trends of the 19th century are well known to scholars working in different disciplines of social history and the history of education, in particular, it is still true that major sections of the evidence are largely uncollected. This is especially so for school books; there is virtually a gap between the 18th century and the present grammatical tradition. This bibliography lists some 1930 works on English grammar published in the 19th century, mainly in Britain and the US, half of which are accompanied by short descriptions of their physical make-up, content, and affiliation.

The English Grammar Schools to 1660 Foster Watson, 1908

Descriptive Adequacy of Early Modern English Grammars Ute Dons, 2012-04-17

The book deals with the development of descriptive models of English grammar writing during the Early Modern English period. For the first time, morphology and syntax as presented in Early Modern English grammars are systematically investigated as a whole. The statements of the contemporary grammarians are compared to hypotheses made in modern descriptions of Early Modern English, and where necessary, checked against the Early Modern English part of the Helsinki Corpus. Thus, a comprehensive overview of the characteristic features of Early Modern English is complemented by conclusions about the descriptive adequacy of Early Modern English grammars. It becomes evident that comments by contemporary authors occasionally reflect the corpus data more adequately than the
