Growing Up Global Institute of Medicine, National Research Council, Division of Behavioral and Social Sciences and Education, Board on Children, Youth, and Families, Committee on Population, Panel on Transitions to Adulthood in Developing Countries, 2005-06-25 The challenges for young people making the transition to adulthood are greater today than ever before Globalization with its power to reach across national boundaries and into the smallest communities carries with it the transformative power of new markets and new technology At the same time globalization brings with it new ideas and lifestyles that can conflict with traditional norms and values And while the economic benefits are potentially enormous the actual course of globalization has not been without its critics who charge that to date the gains have been very unevenly distributed generating a new set of problems associated with rising inequality and social polarization Regardless of how the globalization debate is resolved it is clear that as broad global forces transform the world in which the next generation will live and work the choices that today's young people make or others make on their behalf will facilitate or constrain their success as adults Traditional expectations regarding future employment prospects and life experiences are no longer valid *Growing Up Global* examines how the transition to adulthood is changing in developing countries and what the implications of these changes might be for those responsible for designing youth policies and programs in particular those affecting adolescent reproductive health The report sets forth a framework that identifies criteria for successful transitions in the context of contemporary global changes for five key adult roles adult worker citizen and community participant spouse parent and household manager *Growing Up Global: the Changing Transitions to Adulthood in Developing Countries*, 2004 Recognizing the need to learn more about this crucial period of life the National Research Council convened a panel of experts to examine how the transition to adulthood is changing in developing countries and what the implications of these changes might be for those responsible for designing youth policies and programs in particular those affecting adolescent reproductive health *Growing Up Global* National Research Council (U.S.). Gebel,S. Heyne,2014-08-26 This book identifies chances and barriers women face in their transition to adulthood in Egypt Iran Jordan and Syria Adopting a life course perspective it provides a new integrative micro macro theoretical framework and innovative analyses of individual life courses based on longitudinal data **Handbook Of The Sociology Of Youth In Brics Countries** Tom Dwyer,Mikhail K Gorshkov,Ishwar Modi,Chunling Li,Mokong S Mapadimeng,2017-11-08 Youth are by definition the future This book brings initial analyses to bear on youth in the five BRICS countries Brazil Russia India China and South Africa which are home to nearly half of the world s youth Very little is known about these youth outside of their own countries since the mainstream views on youth and youth culture are derived from the available literature on youth in the industrialized West which is home to a small part of the world s youth This book aims to help fill in this gap The handbook examines the state of youth their past present and permits the development of insights about future The BRICS countries have all engaged in development processes and some remarkable improvements in young people s lives over recent decades are documented However the chapters also show that these gains can be undermined by instabilities poor decisions and external factors in those countries Periods of economic growth political progress cultural opening up and subsequent reversals rearticulate differently in each society The future of youth is sharply impacted by recent transformations of economic political and social realities As new opportunities emerge and the influence of tradition on youth s lifestyles weakens and as their norms and values change the youth enter into conflict with dominant expectations and power structures The topics covered in the book include politics education health employment leisure Internet identities inequalities and demographics The chapters provide original insights into the development of the BRICS countries and place the varied mechanisms of youth development in context This

handbook serves as a reference to those who are interested in having a better understanding of today's youth. Readers will become acquainted with many issues that are faced today by young people and understand that through fertile dialogues and cooperation youth can play a role in shaping the future of the world.

Encyclopedia of Diversity in Education James A. Banks, 2012-05-17

The diversity education literature both nationally and internationally is broad and diffuse. Consequently, there needs to be a systematic and logical way to organize and present the state of research for students and professionals. American citizens need to understand the dynamics of their increasingly diverse communities and institutions and the global world in which we live, work and lead. With continually evolving information on diversity policies, practices and programs, it is important to have one place where students, scholars, teachers and policymakers can examine and explore research, policy and practice issues and find answers to important questions about how diversity in U.S. education is enriched with theories, research and practices in other nations, are explained and communicated and how they affect institutional change at both the K-12 and postsecondary levels. With about 700 signed entries with cross references and recommended readings, the Encyclopedia of Diversity in Education, 4 volumes in both print and electronic formats, will present research and statistics, case studies and best practices, policies and programs at pre and postsecondary levels. Diversity is a worldwide phenomenon and while most of the entries in the Encyclopedia will focus on the United States, diversity issues and developments in nations around the world, including the United States, are intricately connected. Consequently, to illuminate the many aspects of diversity, this volume will contain entries from different nations in the world in order to illuminate the myriad aspects of diversity. From A to Z, this Encyclopedia will cover the full spectrum of diversity issues including race, class, gender, religion, language, exceptionality and the global dimensions of diversity as they relate to education. This four-volume reference work will be the definitive reference for diversity issues in education in the United States and the world.

GENDER ISSUES

AMITA SAXENA, 2019-08-21

Gender inequality and discrimination not only in India, all over the world is a multifaceted issue that has been related to both men and women. Some people think gender equality indices place men at a disadvantage when India's population is surveyed, women are found to be at disadvantage in several ways. These trends are disturbing as a natural prediction would be that with growth comes education and prosperity, the dowry system involving a cash or in-kind payment from the bride's family to the grooms at the time of marriage is another institution that disempowers women. It reinforces the inferior status of Indian women and puts them at risk of violence in their marital households. The normalization of intra-household violence is a huge detriment to the welfare of women. Crimes against women have doubled. Gender inequality extends across various facets of society. Political participation is a key factor to rectify this situation. Gender bias extends to electoral politics and their representative also. The book deals with Population Stabilizing Measure, Juvenile Delinquency, Gender Based Violence, Women Fish Retailers, Gender Inequality, Geriatric Issues in Women and their Management in India, Women's Attitude And The Environment, The Journey of Indian Women across ages, Gender Discrimination in the Workplace.

Hirsch,2015-11-19 Minority youth unemployment is an enduring economic and social concern This book evaluates two new initiatives for minority high school students that seek to cultivate marketable job skills The first is an after school program that provides experiences similar to apprenticeships and the second emphasizes new approaches to improving job interview performance The evaluation research has several distinct strengths It involves a randomized controlled trial uncommon in assessments of this issue and age group Marketable job skills are assessed through a mock job interview developed for this research and administered by experienced human resource professionals Mixed methods are utilized with qualitative data shedding light on what actually happens inside the programs and a developmental science approach situating the findings in terms of adolescent development Beneficial for policy makers and practitioners as well as scholars Job Skills and Minority Youth focuses on identifying the most promising tactics and addressing likely implementation issues Youth Violence Catherine Ward,Andrew Dawes,Amelia van der Merwe,2012-01-25 Youth violence Sources and solutions in South Africa thoroughly and carefully reviews the evidence for risk and protective factors that influence the likelihood of young people acting aggressively Layers of understanding are built by viewing the problem from a multitude of perspectives including the current situation in which South African youth are growing up perspectives from developmental psychology the influences of race class and gender and of the media The book then reviews the evidence for effective interventions in the contexts of young people s lives their homes their schools their leisure activities with gangs in the criminal justice system in cities and neighbourhoods and with sexual offenders In doing so thoughtful suggestions are made for keeping an evidence
