Marijuana legalization. Positive and negative effects of marijuana for medical purposes Difrine Madara, 2020-05-25 Academic Paper from the year 2019 in the subject Medicine Pharmacology Pharmacy grade A language English abstract Several jurisdictions around the world have passed laws legalizing the use of marijuana for medicinal purposes These legislations allow for the use of cannabinoids and cannabis to alleviate some of the symptoms associated with terminal cancer epilepsy and neurological illnesses However there are serious public health concerns associated with marijuana as some experts argued that these jurisdictions have not effectively regulated its use in a manner consistent with the international drug control treaties In many cases Subbaraman 2014 indicated that marijuana is being diverted for use in non medicinal purposes In most of these countries poor regulation of medical cannabis programs is attributed to the low perception of risk among the policymakers and the members of the public as a whole In the United Kingdom and several countries in Europe marijuana is either totally banned or its use is heavily regulated As a result there have been increasing calls for the UK and the rest of Europe to follow the footsteps of Canada the Netherlands and a growing number of states in the United States where the use of marijuana for medicinal purposes has been legal for quite some time In this regard this essay evaluates whether the UK and the rest of Europe should legalize marijuana for medicinal purposes This paper explored some of the positive and negative effects of marijuana on the people and the rest of the economy Legalizing Marijuana Nancy E. After Legalization Jon Walker, 2014-01-12 After Legalization Understanding the Future of Marijuana Policy is a groundbreaking new book examining how legal marijuana will likely be treated in the United States 20 years from now According to Gallup 58% of Americans support ending marijuana prohibition and Colorado and Washington State have already passed historic ballot initiatives to tax and regulate pot When it comes to marijuana in the United States it is no longer a question of when but how it will be legalized After Legalization is a creative exploration of one likely future for legal marijuana that will give readers a sense of the coming battles relevant players and political dynamics which will dominate the issue in the coming years How will it happen and what will America look like after legalization What should be the age limit Will we tightly restrict its sale to only a few specialty stores or will it be allowed on the shelves at every shopping market in the country Should we give individuals free rein to grow as much as they want or will we limit production to a few licensed farms If you care about the answers to these and other questions concerning the future of marijuana policy this is a pivotal moment to join the conversation the decisions made now will likely define the industry for decades to come PRAISE FOR AFTER LEGALIZATION GLENN GREENWALD JOURNALIST Jon Walker has established himself as one of the most diligent insightful and important young policy writers in America and this new book cements that status America is finally coming to terms with the stark irrationality and destructiveness of its criminal prohibitions on marijuana rendering legalization inevitable Walker s hard earned expertise is vital for understanding how this process can be accelerated and most effectively implemented It s a must read for anyone with even a passing interest in drug policy and reform RYAN GRIM HUFFINGTON POST DC BUREAU CHIEF The history of American drug policy shows that it does not move in one direction only At the turn of the century drugs were legal before being prohibited followed by liberalization in the 70s followed by the crackdown of the next several decades Gains made today could be wiped out tomorrow which is what gives Jon Walker s remarkable book its unique importance This is the clear eyed look around the corner that is urgently

Why Marijuana Must Be Legalized* Patrick Kimuyu, 2017-12-11 Essay from the year 2016 in the subject Law Public Law Constitutional Law Basic Rights grade 2 Egerton University language English abstract This research paper will give justifications for the legalization of marijuana Currently there is an endless debate on whether the use of marijuana should be legalized However some few countries have so far legalized the use of marijuana not only for medical use but for general use just like tobacco From the scientific as well as economic perspectives marijuana seems to have enormous benefits although many people view its benefits from the social perspective which make it appear unethical Nevertheless marijuana remain a highly productive crop which holds economic and health benefits just like any other Agricultural crop cultivated for its usefulness to human beings elsewhere Legalization of marijuana means that the current prohibition on its use in the US Constitution will be lifted to allow public use of the herb and its products However the legalization of marijuana may require an overhaul review of the US Constitution because there are series of enactments and regulations which prohibit public use of marijuana Historically legislations illegalizing marijuana began with the Opium Act of 1908 although this Act was framed as statement Later on the Opium Act was amended to demystify its legal implication Today there are numerous legislations which prohibit marijuana use although some US States have legalized the production of medical marijuana *Legal Marijuana* Joaquin Jay Gonzalez III, Mickey P.
