

An abstract painting featuring a large, stylized face in the upper left corner, rendered in shades of blue and white. The face has a prominent nose and a wide, open mouth. To the right of the face, the word "JUSTICE" is written in large, white, block letters against a dark blue background. The letters are slightly tilted and have a three-dimensional appearance. Below the face and the word "JUSTICE", there are various abstract shapes and colors, including blue, white, and red, suggesting a landscape or a complex scene. Neoliberalism and Commodity Production in Mexico Thomas Weaver, James B. Greenberg, William L. Alexander, Anne Browning-Aiken, 2012-06-15 *Neoliberalism and Commodity Production in Mexico* details the impact of neoliberal practice on the production and exchange of basic resources in working class communities in Mexico Using anthropological investigations and a market driven approach contributors explain how uneven policies have undermined constitutional protections and working class interests since the Mexican Revolution of 1910 Detailed ethnographic fieldwork shows how foreign investment privatization deregulation and elimination of welfare benefits have devastated national industries and natural resources and threatened agriculture driving the campesinos and working class deeper into poverty Focusing on specific commodity chains and the

changes to production and marketing under neoliberalism the contributors highlight the detrimental impacts of policies by telling the stories of those most affected by these changes They detail the complex interplay of local and global forces from the politically mediated systems of demand found at the local level to the increasingly powerful municipal and state governments and the global trade and banking institutions Sharing a common theoretical perspective and method throughout the chapters Neoliberalism and Commodity Production in Mexico is a multi sided ethnography that makes a significant contribution to studies of neoliberal ideology in practice Intersectional Feminism in the Age of Transnationalism Rayssa E. Pinochet Indira Palacios-Valladares, 2011 In recent decades many countries have implemented neoliberal reforms that have had adverse consequences for unions In Chile this process was particularly sweeping having occurred under the right wing dictatorship of General Augusto Pinochet Despite the transition to democracy in 1990 the labor relations system created by the Pinochet regime is still largely in place Although a number of works have assessed the conditions of unionism in post dictatorship Chile little attention has been paid to the firm level which is where most of the collective bargaining now takes place This book takes a qualitative approach to examining the dynamics of collective bargaining at the firm level in democratic Chile by investigating the causes of variation in the bargaining outcomes of fifty three unions in four firms in the banking manufacturing retail and telecommunications sectors It seeks to explain both variation in individual union bargaining outcomes within firms and aggregate differences in outcomes between firms The book also provides a systematic explanation of the decline of collective bargaining results among Chilean unions in general during the 1990s and early 2000s
