Marcy 1600 Exercise Guide:

Women and Liberty, 1600-1800 Jacqueline Broad, Karen Detlefsen, 2017 There have been many different historical intellectual accounts of the shaping and development of concepts of liberty in pre Enlightenment Europe This volume is unique for addressing the subject of liberty principally as it is discussed in the writings of women philosophers and as it is theorized with respect to women and their lives during this period The volume covers ethical political metaphysical and religious notions of liberty with some chapters discussing women s ideas about the metaphysics of free will and others examining the topic of women s freedom or lack thereof in their moral and personal lives as well as in the public socio political domain In some cases these topics are situated in relation to the emergence of the concept of autonomy in the late eighteenth century and in others with respect to recent feminist theorizing about relational autonomy and internalized oppression Many of the chapters draw upon a wide range of genres including polemical texts poetry plays and other forms of fiction as well as standard philosophical treatises Taken as a whole this volume shows how crucial it is to recover the too long forgotten views of female and women friendly male philosophers of the seventeenth and eighteenth centuries In the process of recovering these voices our understanding of philosophy in the early modern period is not only expanded but also significantly enhanced toward a more accurate and gender inclusive history of our discipline
