One of the oldest breeds of dogs is the Great Pyrenees This breed was developed long ago in the Pyrenees Mountains which lie between France and Spain These canines were bred by shepherds to coexist with and defend the flock against large vicious animals To tend to the young lambs they needed to be both powerful and tender These canines are enormous they frequently weigh over 100 pounds Yet they make wonderful family pets because they are typically quite kind and affectionate with children A competent flock guardian must possess these qualities independence loyalty and hard work These dogs can think for themselves therefore sometimes trying to train them will make them a little resistant However you may teach them both easy and difficult tricks if you have the proper mindset and training supplies With the guidance of this book you will be able to determine whether the Great Pyrenees is the best dog breed for you and your family *Great Pyrenees Training*
