Growing Modular Mass Customization Of Complex Products Services And Software:

Growing Modular Milan Kratochvíl, Charles Carson, 2005-12-05 A starter to the concepts of modularization and mass customization Condensed and application oriented approach for a broad audience in engineering production sales and marketing Provides an extensive configurator evaluation checklist for future users and a supplement of business cases

Variety Induced Complexity in Mass Customization Nizar Abdelkafi, 2008 Mass Customisation and Personalisation in Architecture and Construction Poorang Piroozfar, Frank Piller, 2013-06-19 Challenged by the recent economic crisis the building and construction industry is currently seeking new orientation and strategies Here mass customisation is uncovered as a key strategy in helping to meet this challenge The term mass customisation denotes an offering that meets the demands of each individual customer whilst still being produced with mass production efficiency Today mass customisation is emerging from a pilot stage into a scalable and sustainable strategy The first dedicated publication of its kind this book provides a forum for the concept within an applied and highly innovative context The book includes contributions from some of the most prominent thinkers and practitioners in the field from across the world including Kasper S Vibaek Steve Kendall Martin Bechthold Mitchell M Tseng and Masa Noguchi Bringing together this panel of experts who have carried out research both in academia and practice this book provides an overview of state of the art practice related to the concept of customisation and personalisation within the built environment *Services Customization Using Web Technologies* Kardaras, Dimitris, Karakostas, Bill, 2012-05-31 The Internet gives the consumer almost unlimited choice in products At the same time it causes a globalization of consumer habits and tastes One important question that arises is Does the Internet and the World Wide Web offer the same opportunities for choice of services as they do for products *Services Customization Using Web Technologies* aims to advance our understanding of Web related concepts approaches and technologies revolving around the core theme of e service customization Limitless e service choice can become possible on the Web only through customization Understanding such customization on the Web applied at a mass market level in a cost efficient manner will present an unprecedented opportunity for both the industry and the consumers For both researchers and practitioners understanding that as service customization accelerates through other types of industries and consumers we will experience the benefits of service customization in many more areas of everyday life Mass Customized Manufacturing Vladimir Modrak, 2017-02-17 This book brings several original contributions to research and practical applications in the field of mass customization from the designer manufacturer and customer perspectives respectively It presents advancements in product design for mass customization design of assembly and supply chain processes variety induced complexity models complexity management marketing tools information systems to support decision making and critical success factors of this manufacturing and marketing strategy A special focus of interest is also on the use of product configurators in practice and sustainability assessment for mass customization strategy The aim is to disseminate current developments and approaches

for further theoretical investigation and practical applications of mass customized manufacturing systems Performance simulation of modular product architectures by model-based configuration Florian M. Dambietz, 2021-09-30 The use of modular product architectures can significantly increase the efficiency in manufacturing companies Various modularization methods are used in the development of these architectures but they always result in different architecture alternatives This thesis describes the development of a model based simulation for multi dimensional performance assessment of these architecture alternatives with their corresponding modular kits The central element of this simulation is formed by a model based configuration system identifying individually valid product variants using concepts and tools of Model based systems engineering MBSE Based on the developed Hyperspace algorithm a geometric mathematical solution approach these variants are then evaluated considering multiple parameters By recursively configuring multiple customer requests using alternative modular kits an individual performance criterion of these alternatives can be generated including customer market and company parameters This thesis describes the development of the performance simulation on the basis of a simplified explanation example A validation based on customer specific laser welding systems is also shown Applied Software Product Line Engineering Kyo C. Kang, Vijayan Sugumaran, Sooyong Park, 2009-12-22 Over the last decade software product line engineering SPLE has emerged as one of the most promising software development paradigms for increasing productivity in IT related industries Detailing the various aspects of SPLE implementation in different domains Applied Software Product Line Engineering documents best practices with regard to syst Software Product Lines: Going Beyond Jan Bosch, Jaejoon Lee, 2010-09-08 This volume constitutes the refereed proceedings of the 14th International Software Product Line Conference SPLC 2010 held on Jeju Island South Korea in September 2010 *The Science of Service Systems* Haluk Demirkan, James C. Spohrer, Vikas Krishna, 2011-04-20 The Science of Service Systems intends to stimulate discussion and understanding by presenting theory based research with actionable results Most of the articles focus on formalizing the theoretical foundations for a science of service systems examining a wide range of substantive issues and implementations related to service science from various perspectives From the formal ontologies representation specifications decision making and maturity models to the informal analysis frameworks design heuristics anecdotal observations these contributions provide a snapshot in time of the gradually emerging scientific understanding of service systems The Science of Service Systems along with its companion text Service Systems Implementation is designed to present multidisciplinary and multisectoral perspectives on the nature of service systems on research and practice in service and on the future directions to advance service science These two volumes compose a collection of articles from those involved in the emerging area known as service science Technical, Social, and Legal Issues in Virtual Communities: Emerging Environments Dasgupta, Subhasish, 2012-05-31 Technical Social and Legal Issues in Virtual Communities Emerging Environments examines a variety of issues related to virtual communities and social networking addressing issues related to team identification leader member
