scholarship in this field over the last 15 years Both this volume and the new book series that it is initiating signal the maturing of this field from childhood through adolescence and now into emerging adulthood The breadth of work discussed in this collection is exceptionally broad ranging from psychological theorizing about the impact of youth serving programs in the out of school time period to social policy analyses of how to grow the profession of OST Youth Professionals and create steady funding streams to support OST programming All topics are critically discussed and new directions are suggested I consider this book to be required reading of all students scholars professional and practitioners in the field of positive youth development and OST programming I go even further by suggesting it be read broadly by anyone interested in the education and development of young people around the world There is no better collection available for educators parents community activists and social policy makers concerned with positive youth development I believe this collection lays a very strong foundation for achieving the goal set forth by Karen Pittman for the field to move from Where and when to what and how Jacquelynne S Eccles Distinguished University Professor of Education University of California Irvine The impressive growth of OST programs represents one of the brightest spots on the American educational landscape Importantly as this book portrays what began a series of programs and local initiatives has now grown into a maturing field with standards scholarship organizations policies and funding at the national state and local levels And more than a field OST carries the urgency energy and passion of a movement for social justice The Growing Out of School Time Field offers a comprehensive review of earlier decades of work and points the way forward for the field s future development It should be read not only by those involved in the OST field but by all educators who seek to create inclusive and powerful learning environments Policymakers as well would benefit from deeper knowledge of this movement It holds a key to preparing today s youth for an uncertain future where the nature of work is changing norms of society are shifting and multicultural global perspectives are needed Milton Chen Ph D Senior Fellow Executive Director Emeritus George Lucas Educational Foundation edutopia org Book reviews Journal of Youth Development Book Review of The Growing Out of School Time Field Past Present and Future Youth Today The Growing Out of School Time Field Past Present and Future book review *Using Paired Text to Meet the Common Core* William Bintz,2014-12-17 Teaching students to make connections across related texts promotes engagement and improves reading comprehension and content learning This practical guide explains how to select and teach a wide range of picture books as paired text two books related by topic theme or genre in grades K 8 The author provides mini lessons across the content areas along with hundreds of recommendations for paired text each linked to specific Common Core standards for reading literature and informational texts In a large size format for easy photocopying the book includes 22 reproducible graphic organizers and other useful tools Purchasers also get access to a Web page where they can download and print the reproducible materials *For Younger Readers* ,2000 [For Younger Readers; Braille and Talking Books](#) ,2000 [Lesson Plans for Friends and Fun](#) ,1957 **Congressional Record** United States.
