Christine Kelleher Palus, Richardson Dilworth, 2016-02-11 The CQ Press Guide to Urban Politics and Policy in the United States will bring the CQ Press reference guide approach to topics in urban politics and policy in the United States If the old adage that all politics is local is even partially true then cities are important centers for political activity and for the delivery of public goods and services U S cities are diverse in terms of their political and economic development demographic makeup governance structures and public policies Yet there are some durable patterns across American cities too Despite differences in governance and or geographic size most cities face similar challenges in the management of public finances the administration of public safety and education And all U S cities have a similar legal status within the federal system This reference guide will help students understand how American cities from old to new have developed over time Part I how the various city governance structures allocate power across city officials and agencies Part II how civic and social forces interact with the organs of city government and organize to win control over these organs and or their policy outputs Part III

and what patterns of public goods and services cities produce for their residents Part IV The thematic and narrative structure allows students to dip into a topic in urban politics for deeper historical and comparative context than would be possible in either an A to Z encyclopedia entry or in an urban studies course text FEATURES Approximately 40 chapters organized in major thematic parts in one volume available in both print and electronic formats Front matter includes an Introduction by the Editors along with biographical backgrounds about the Editors and the Contributing Authors Back matter includes a compilation of relevant topical data or tabular presentation of major historical developments population growth size of city budgets etc or historical figures e g mayors a bibliographic essay and a detailed index Sidebars are provided throughout and chapters conclude with References Further Readings and Cross References to related chapters as links in the e version This Guide is a valuable reference on the topics in urban politics and policy in the United States The thematic and narrative structure allows researchers to dip into a topic in urban politics for a deeper historical and comparative context than would be possible in either an A to Z encyclopedia entry or in an urban studies course text

The Twin Cities Green Guide, 2001 **Ecological Design, Tenth Anniversary Edition** Sim Van der Ryn, Stuart Cowan, 2013-03-05 Ecological Design is a landmark volume that helped usher in an exciting new era in green design and sustainability planning Since its initial publication in 1996 the book has been critically important in sparking dialogue and triggering collaboration across spatial scales and design professions in pursuit of buildings products and landscapes with radically decreased environmental impacts This 10th anniversary edition makes the work available to a new generation of practitioners and thinkers concerned with moving our society onto a more sustainable path Using examples from architecture industrial ecology sustainable agriculture ecological wastewater treatment and many other fields Ecological Design provides a framework for integrating human design with living systems Drawing on complex systems ecology and early examples of green building and design the book challenges us to go further creating buildings infrastructures and landscapes that are truly restorative rather than merely diminishing the rate at which things are getting worse

Regenerative agroubanism R. France,2023-08-14 The core activities of urban agriculture are involved with producing processing marketing distributing and consuming food Urban agriculture also provides services and outcomes through transforming neglected or damaged landscapes lives and livelihoods This book focuses on the so called ancillary benefits of urban agriculture in terms of healing economies connections aesthetics heritage and sites and societies in short what might be referred to in an holistic sense as the emerging paradigm of agroubanism More than seventy case studies from around the

world are reviewed through the social ecological lens of regenerative landscape design. Many of these cases have never before been discussed in the literature. Topics examined include entrepreneurship, gastro tourism, food literacy, foodscaping, heritage and social and societal wellbeing. The methodological approach undertaken is layered narrative scholarship based on the phenomenology of experiencing landscapes and is facilitated through a linked website containing photo essays documenting the site visits.

Robert L. France is a world renowned scientist in the Faculty of Agriculture at Dalhousie University where he teaches courses on urban agriculture, ecohydrology, watershed management, conservation biology and environmental restoration. For more than a decade he taught and conducted research on landscape architecture, land use planning and urban design at the Harvard Design School. Dr. France is the author or editor of twenty-two books and more than two hundred journal articles on a wide range of environmental subjects which together have been cited more than ten thousand times in the professional literature.
