Reviews of Vocational Education and Training A Skills beyond School Review of Kazakhstan Álvarez-Galván José-Luis,2014-12-09 This report on vocational education and training programmes in Kazakhstan examines how employers and unions can be engaged how workbased learning can be used and how teachers and trainers can be prepared

Science Education in Canada Christine D. Tippet, Todd M. Milford,2019-07-01 This book offers a meso level description of demographics science education and science teacher education Representing all 13 Canadian jurisdictions the book provides local insights that serve as the basis for exploring the Canadian system as a whole and function as a common starting point from which to identify causal relationships that may be associated with Canada s successes The book highlights commonalities consistencies and distinctions across the provinces and territories in a thematic analysis of the 13 jurisdiction specific chapters Although the analysis indicates a network of policy and practice issues warranting further consideration the diverse nature of Canadian science education makes simple identification of causal relationships elusive Canada has a reputation for strong science achievement However there is currently limited literature on science education in Canada at the general level or in specific areas such as Canadian science curriculum or science teacher education This book fills that gap by presenting a thorough description of science education at the provincial territorial level as well as a more holistic description of pressing issues for Canadian science education *Wisconsin Standards for Agriculture, Food, and Natural Resources* Wisconsin. Department of Public Instruction,2013 *Leading under Duress* Jean-Pierre Bongila,2024-11-15 This comparative study of teacher attrition in the Global South and OECD countries examines the exceptionality of twenty selected learning leaders in the D R Congo Ghana and Uganda who have stayed in the teaching profession and led their student learning with devotion and integrity Like any learning leader exceptional teachers live the challenges and pressures that have caused some of their peers to leave the profession The extraordinary learning leaders from elementary secondary and higher education have stood victorious amid education devaluations and professional tensions The author gives voice to those exceptional teachers and analyzes the ethical rationale behind their unfailing commitment to their teaching vocation Their teaching philosophies and personal accounts revealed altruistic impulses This book further explores the exceptional teachers narratives and their selfless actions through the lens of philanthropic and leadership ethics theories Although the exceptional teachers altruism appears self sacrificing it embodies some form of self benefit because one can hardly fathom altruism for altruism s sake Nevertheless the twenty exceptional teachers acted in a self sacrificing manner The author appeals to the Global South countries to implement education policies that should redecorate the profession of learning

leadership The Routledge Companion to the Future of Management Research David Crowther, Shahla Seifi, 2023-09-14
The management of organisations continues to evolve as new priorities emerge and new approaches are developed. Thus it is clear that research into business and management will also continue to evolve. This will be in terms of both what is researched and in terms of the techniques and methods used to conduct research. Such development will continue into the future and this book highlights evolving areas. It also suggests new topics which are emerging and new techniques to conduct such research topics and techniques that will be of benefit to researchers. The unique focus on the future of research methods in management, the emergence of topics in contemporary management and sustainability research and practices such as sustainability and circular economy will set this volume apart. With coverage of new and emerging subjects in management studies such as sustainability, zero carbon, green market and circular economy and the international collaboration with contributors from all around the globe, this major interdisciplinary reference volume will be of interest and great value to researchers, academics and advanced students in the fields of business and management research and appropriate methodologies.

Narrating the Soviet Era in Russian School History Textbooks Olga Konkka, 2025-09-03
This study focuses on how Russian history textbooks published between 1992 and 2021 dealt with the topic of the Soviet period 1917-1991. Representations of this part of Russia's past in school manuals have provoked vivid debates and bolstered government intervention in the field, while a gradual shift towards a less critical narrative of the USSR in more recent textbooks is often presented as directed by Vladimir Putin. This study combines research into these texts and inquiry into those who write, publish, approve or criticize them. Bringing together these perspectives provides a more complex view of school textbooks as final products of both top-down and bottom-up processes. This volume is aimed at postgraduates, researchers and academics specializing in Soviet history, contemporary Russian politics and society and history education and textbooks.
