Handbook of Collaborative Management Research A. B. Shani, Susan Albers Mohrman, William A. Pasmore, Bengt Stymne, Niclas Adler, 2007-08-23 This handbook provides the latest thinking methodologies and cases in the rapidly growing area of collaborative management research What makes collaborative management research different is its

emphasis on creating a close partnership between scholars and practitioners in the search for knowledge concerning organizations and complex systems In the ideal situation scholars and their managerial partners would work together to define the research focus develop the methods to be used for data collection participate equally in the analysis of data and work together in the application and dissemination of knowledge The handbook contains insightful reflections on the state of the art as well as detailed descriptions of the collaborative efforts of an international group of leading edge academics and their practitioner counterparts The applications of collaborative research methods included in this volume include those aimed at individual development organizational development regional development efforts and economic policy The insights from the cases suggest that collaborative management research has been a highly effective means of getting at issues that other research methods and intervention techniques have failed to address The rationale for conducting this highly engaging type of research is explored in the first section of the handbook followed by sections that offer new methodologies descriptive cases views from those directly involved and issues and enablers about the use of this approach in advancing knowledge and practice The handbook does appeal to scholarly practitioners as well as practical scholars

Handbook on Women in Business and Management D. Bilimoria, 2007 This very impressive Handbook takes established research topics about women in management and treats them in fresh and novel ways The chapters are intellectually interesting sound and provocative and meet the editors aspiration to stimulate high quality research on women s experiences in work organizations I recommend it highly Jean M Bartunek Boston College US This comprehensive Handbook presents specially commissioned original essays on the societal roles and contexts facing women in business and management the specific career and work life issues of women in these fields organizational processes affecting women and the role of women as leaders in business and management The essays shed light on the extant structures and practices of society and organizations that constrain or facilitate women s representation treatment quality of life and success Despite decades of ongoing inquiry and increasing interest research on women in business and management remains a specialized field without mainstream acceptance within business and management disciplines The Handbook presents the current state of knowledge about women in business and management and specifies the directions for future research likely to be most constructive for advancing the representation treatment quality of life and success of women who work in these fields It provides the foundations for improved societal and organizational structures policies and relational practices affecting all in business and management Thus by enhancing the knowledge base that improves the work and life situations of women it suggests ways to elevate the societal and organizational systems for all The Handbook will be an essential reference source for recent advances in research and theory informing both scholars of organization studies gender diversity and feminism human resource specialists and educators of and consultants to business organizations and management

Relations Dirk Messner, Silke Weinlich, 2015-12-14 This book aims to pave the way for a new interdisciplinary approach to global cooperation research It does so by bringing in disciplines whose insights about human behaviour might provide a crucial yet hitherto neglected foundation for understanding how and under which conditions global cooperation can succeed As the first profoundly interdisciplinary book dealing with global cooperation it provides the state of the art on human

cooperation in selected disciplines evolutionary anthropology and biology decision sciences social psychology complex system sciences written by leading experts The book argues that scholars in the field of global governance should know and could learn from what other disciplines tell us about the capabilities and limits of humans to cooperate This new knowledge will generate food for thought and cause creative disturbances allowing us a different interpretation of the obstacles to cooperation observed in world politics today It also offers first accounts of interdisciplinary global cooperation research for instance by exploring the possibilities and consequences of global we identities by describing the basic cooperation mechanism that are valid across disciplines or by bringing an evolutionary perspective to diplomacy This book will be of great interest to scholars and postgraduates in International Relations Global Governance and International Development The Open Access version of this book available at <http://www.taylorfrancis.com> has been made available under a Creative Commons Attribution CC BY 4.0 license
