

Boston's Complete Streets

Bus Lanes and Transit Prioritization
A dedicated transit lane for buses, trolleys, and streetcars provides faster travel times and reduces congestion. Transit lanes can also be used for carpooling and other transit modes.

Intelligent Traffic and Traffic Control
Intelligent traffic control systems can optimize traffic flow and reduce congestion. These systems can be used to prioritize transit, bicycles, and pedestrians.

Electric Vehicle Charging Stations

Electric vehicle charging stations provide a convenient way for drivers to recharge their vehicles. These stations can be located in public spaces, parking lots, and along transit routes.

Ease of Maintenance

The design of a street can make it easier to maintain and repair. Features like wide shoulders, clear sight triangles, and accessible sidewalks can reduce the cost and time of maintenance.

Accessible Surfaces

Accessible surfaces are essential for ensuring that all people can safely use a street. This includes providing for people with disabilities, the elderly, and children.

Paved Shoulder Surfaces

Paved shoulders provide a safe place for vehicles to pull over in case of an emergency. They also provide a place for bicycles and pedestrians to travel.

Street and Car-Pooling Lanes
Street and car-pooling lanes provide a way for people to travel faster and more efficiently. These lanes can be used for buses, trolleys, and streetcars, as well as for carpooling.

Minimum Lane Widths
Minimum lane widths are important for ensuring that streets are safe and functional. These widths can vary depending on the type of street and the mode of travel.

Street Furniture and Street Design
Street furniture and street design can make a street more attractive and functional. This includes things like streetlights, benches, and planters.

Street Trees and Landscaping
Street trees and landscaping can improve the quality of a street and provide many benefits. These include shade, air pollution reduction, and aesthetic value.

Street Safety

Street safety is a top priority for city planners. This includes things like improving crosswalks, adding more streetlights, and creating safer intersections.

Bicycle Lanes and Cycle Tracks

Bicycle lanes and cycle tracks provide a safe and dedicated space for people to ride their bicycles. These facilities can be found on many city streets.

Digital Tags and Information Codes

Digital tags and information codes can provide a way for people to get information about a street or a city. This includes things like traffic conditions, construction projects, and public safety information.

Wide Sidewalks

Wide sidewalks provide a safe and comfortable place for people to walk. They also provide a place for people to stand and wait for a bus or a train.

Participatory Design Douglas Schuler,Aki Namioka,2017-12-14 The voices in this collection are primarily those of researchers and developers concerned with bringing knowledge of technological possibilities to bear on informed and effective system design Their efforts are distinguished from many previous writings on system development by their central and abiding reliance on direct and continuous interaction with those who are the ultimate arbiters of system adequacy namely those who will use the technology in their everyday lives and work A key issue throughout is the question of who does what to whom whose interests are at stake who initiates action and for what reason

who defines the problem and who decides that there is one The papers presented follow in the footsteps of a small but growing international community of scholars and practitioners of participatory systems design Many of the original European perspectives are represented here as well as some new and distinctively American approaches The collection is characterized by a rich and diverse set of perspectives and experiences that despite their differences share a distinctive spirit and direction a more humane creative and effective relationship between those involved in technology s design and use and between technology and the human activities that motivate the technology Software Development Tools Raymond C.
