Green Urbanism Learning From European Cities:

Green Urbanism Timothy Beatley, 2012-09-26 As the need to confront unplanned growth increases planners policymakers and citizens are scrambling for practical tools and examples of successful and workable approaches Growth management initiatives are underway in the U S at all levels but many American success stories provide only one piece of the puzzle To find examples of a holistic approach to dealing with sprawl one must turn to models outside of the United States In Green Urbanism Timothy Beatley explains what planners and local officials in the United States can learn from the sustainable city movement in Europe The book draws from the extensive European experience examining the progress and policies of twenty five of the most innovative cities in eleven European countries which Beatley researched and observed in depth during a year long stay in the Netherlands Chapters examine the sustainable cities movement in Europe examples and ideas of different housing and living options transit systems and policies for promoting transit use increasing bicycle use and minimizing the role of the automobile creative ways of incorporating greenness into cities ways of readjusting urban metabolism so that waste flows become circular programs to promote more sustainable forms of economic development sustainable building and sustainable design measures and features renewable energy initiatives and local efforts to promote solar energy ways of greening the many decisions of local government including ecological budgeting green accounting and other city management tools Throughout Beatley focuses on the key lessons from these cities including Vienna Helsinki Copenhagen Stockholm Zurich Amsterdam London and Berlin and what their experience can teach us about effectively and creatively promoting sustainable development in the United States Green Urbanism is the first full length book to describe urban sustainability in European cities and provides concrete examples and detailed discussions of innovative and practical sustainable planning ideas It will be a useful reference and source of ideas for urban and regional planners state and local officials policymakers students of planning and geography and anyone concerned with how cities can become more livable

Green Cities of Europe Timothy Beatley, 2012-05-15 In the absence of federal leadership states and localities are stepping forward to address critical problems like climate change urban sprawl and polluted water and air Making a city fundamentally sustainable is a daunting task but fortunately there are dynamic innovative models outside U S borders Green Cities of Europe draws on the world s best examples of sustainability to show how other cities can become greener and more livable Timothy Beatley has brought together leading experts from Paris Freiburg Copenhagen Helsinki Heidelberg Venice Vitoria Gasteiz and London to illustrate groundbreaking practices in sustainable urban planning and design These cities are developing strong urban cores building pedestrian and bicycle infrastructure and improving public transit They are incorporating ecological design and planning concepts from solar energy to natural drainage and community gardens And they are changing the way government works instituting municipal green audits and reforming economic incentives to encourage sustainability Whatever their specific tactics these communities prove that a holistic approach is needed to solve

environmental problems and make cities sustainable Beatley and these esteemed contributors offer vital lessons to the domestic planning community about not only what European cities are doing to achieve that vision but precisely how they are doing it The result is an indispensable guide to greening American cities Contributors include Lucie Laurian Paris Dale Medearis and Wulf Daseking Freiburg Michaela Br el Copenhagen Maria Jaakkola Helsinki Marta Moretti Venice Luis Andr s Orive and Rebeca Dios Lema Vitoria Gasteiz Camilla Ween London
