Buonanno Foley, Patrizia Comello Perry, 2016-05-11 The perceived lack of understanding of cultural diversity in the American learning community has led instructors to challenge assumptions and stereotypes while addressing misconceptions Teachers of foreign languages and cultural studies in particular feel the need to redesign curricula and lesson plans to better serve the learning community of the twenty first century The common starting point resides in the paradox that exists in today's connected world while global access to information makes learners aware of the infinite variety of cultural diversity it does not however make them critical thinkers For this reason there is opportunity to reshape critical thinking within a more global perspective while enhancing the tools to identify interpret and compare the different cultural models that learners encounter The book demonstrates the theories and practical applications by which instructors use contemporary film to provide insightful readings on diverse local communities communities that form the basis of global culture This collection of essays will serve as a pedagogical tool and resource offering methods and examples of a communicative approach to analyze and integrate cultural diversities similarities and problems in the second language curricula methods that expose students to different cultural models while scaffolding their critical approach to multiple layers of common and specific values This work will encourage a dialogue and long lasting conversation on methodologies and teaching strategies rethought reapplied and remolded to the new learning environments *Addressing Global Challenges - Exploring Socio-Cultural Dynamics and*

The God Debaters Adrian Rosenfeldt, 2022-05-04 This book examines the post 9 11 God debate in the West Through a close study of prominent English God debaters Richard Dawkins Karen Armstrong Christopher Hitchens and Terry Eagleton Adrian Rosenfeldt demonstrates that New Atheist and religious apologist ideas and arguments about God science and identity are driven by mythic autobiographical narratives and Protestant or Catholic cultural heritage This study is informed by criticism of the New Atheist polemic as being positivistic and the religious apologists as propagating sophisticated theology In both cases the God debaters are perceived as disassociating themselves from human lived experience It is through reconnecting the God debaters intellectual ideas to their cultural and social background that the God debate can be grounded in a recognisable human reality that eludes reductive distinctions and disembodied abstractions

Practicing Atheism Hannah K. Scheidt, 2021 Although many individuals identify as atheists, little is understood about the belief system beyond the simple lack of a belief in a higher power. Hannah K. Scheidt's *Practicing Atheism: Culture, Media, and Ritual in the Contemporary Atheist Network* unpacks the cultural products both corporate-driven and grassroots that carry messages about atheism to examine the complicated relationship between organized atheism and religion. *Congressional Record* United States. Coleman, 1999-11-25 This book examines the present and future of televised election debates from the Nixon-Kennedy presidential debate of 1960 to the age of digital interactive multimedia. Longshot Zach Graumann, 2022-05-24 In *Longshot*, Andrew Yang's campaign manager takes you on a tour through the ups, the downs, and the math of Yang's 2020 campaign for president and shares the playbook his team used to navigate the attention economy. Andrew Yang did not win the 2020 Democratic primary, let alone the presidency of the United States. But chances are you know who Andrew Yang is, and you may well be part of the 75 percent of Americans who now support Universal Basic Income, both facts that would have seemed beyond unlikely at the start of Yang's campaign. That campaign was helmed by Zach Graumann, entrepreneur, marketing expert, and at the time, political nonentity. In fact, when Graumann joined Yang's 2020 team, no one on the team was an expert in campaigning, but they all shared a fervent desire to change the future. Yet, despite that inexperience, by the time Yang dropped out of the race in early 2020, he'd not only outlasted six senators, four governors, and three members of Congress, he'd become one of the most recognizable popular political figures in the country. Now, for the first time, Graumann tells the story of how Yang went from nobody to national presence, breathing life into the behind-the-scenes antics of the unusual campaign that started a movement. In the process, he demystifies the world of political campaigns and provides takeaways that will help not only the next generation of campaign managers but anyone who wants to break into a new industry or stand out in their current one. A book for everyone, from members of the Yang Gang who want the inside story to businesspeople looking for self-improvement to anyone who has ever had a dream that felt bigger than they were, *Longshot* reminds you that sometimes longshots aren't quite as long as you think.
