Greensense For The Home Rating The Real Payoff From 50 Green Home Projects:

Building a Sustainable Home Melissa Rappaport Schiffman, 2018-08-07 The green building movement has produced hundreds of how to books and websites that are filled with tips about green building and what homeowners should do to go green While helpful and informative when it comes to making actual purchasing and installation decisions these books do not make it any easier for a homeowner to prioritize against a budget Here Schiffman shares her knowledge and experience for others to use in their journey toward a greener way of living Whether the reader is building a new home or doing a minor remodel a homeowner needs a framework by which to guide their decisions These decisions are based on values and the author posits that there are really only three reasons to go green For Our Health By building more sustainably we reduce our exposure to harmful chemicals and toxins For Our Wealth By building a more durable home and being more efficient with resources like water and electricity we reduce our monthly utility bills and ongoing maintenance expenses For Our Soul Collectively doing the right thing for our planet does make a difference and that is soul nourishing Learn the logistics of choosing windows insulation appliances and lighting Find out about FSC certified wood and about using reclaimed materials Here is everything you need to make your home sustainable

[Green Home Building](#) Miki Cook, Doug Garrett, 2014-09-01 A comprehensive guide to building green on any budget According to conventional wisdom building a green home is an expensive endeavor The standard approach treats green as an add on tacking premium products finishes and equipment onto a traditional home design As a result many green home projects end up over budget or fail to achieve their environmental and performance goals Green Home Building explodes the myth that green homes have to cost more Using proven methods based on applied building science the authors show how to Lower base construction costs to provide funding for high performance upgrades Achieve a net zero energy home including zero ing water waste carbon and associated costs within fifteen years Live affordably into the future despite anticipated rising costs for fuel water materials taxes and health care This comprehensive guide to building green on any budget defines the strategies that maximize the return on green investments Written for anyone who has ever been swayed by the argument that the price tag limits how green a home can be Green Home Building is a must read for builders contractors architects designers and homeowners Miki Cook is a green building and sustainability consultant who has dedicated her career to educating contractors and the public on the strategies methods and benefits of green homes Doug Garrett has trained thousands of homebuilders architects and sub contractors to build energy efficient homes using applied building science to improve comfort durability and healthfulness while meeting or exceeding the energy code

48 Things to Know About Sustainable Living Victoria Klein, 2010-10-28 While the debate over our changing environment rages on one thing remains clear being green is a hot topic socially politically and economically Whether you ve been green from birth or don t even know what the three Rs stand for 48 Things To Know About Sustainable Living can help you make small affordable or free changes that will have a major impact on the environment and simplify
