Fostering Culture Through Film Elda Buonanno Foley,Patrizia Comello Perry,2016-05-11 The perceived lack of understanding of cultural diversity in the American learning community has led instructors to challenge assumptions and stereotypes while addressing misconceptions Teachers of foreign languages and cultural studies in particular feel the need to redesign curricula and lesson plans to better serve the learning community of the twenty first century The common starting point resides in the paradox that exists in today s connected world while global access to information makes learners aware of the infinite variety of cultural diversity it does not however make them critical thinkers For this reason there is opportunity to reshape critical thinking within a more global perspective while enhancing the tools to identify interpret and compare the different cultural models that learners encounter The book demonstrates the theories and practical applications by which instructors use contemporary film to provide insightful readings on diverse local communities communities that form the basis of global culture This collection of essays will serve as a pedagogical tool and resource offering methods and examples of a communicative approach to analyze and integrate cultural diversities similarities and problems in the second language curricula methods that expose students to different cultural models while scaffolding their critical approach to multiple layers of common and specific values This work will encourage a dialogue and long lasting conversation on methodologies and teaching strategies rethought reapplied and remolded to the new learning environments

The God Debaters Adrian Rosenfeldt, 2022-05-04 This book examines the post 9 11 God debate in the West Through a close study of prominent English God debaters Richard Dawkins Karen Armstrong Christopher Hitchens and Terry Eagleton Adrian Rosenfeldt demonstrates that New Atheist and religious apologist ideas and arguments about God science and identity are driven by mythic autobiographical narratives and Protestant or Catholic cultural heritage This study is informed by criticism of the New Atheist polemic as being positivistic and the religious apologists as propagating sophisticated theology In both cases the God debaters are perceived as disassociating themselves from human lived experience It is through reconnecting the God debaters intellectual ideas to their cultural and social background that the God debate can be grounded in a recognisable human reality that eludes reductive distinctions and disembodied abstractions

An Invitation to Debate Ben Voth, 2025-08-07 This comprehensive introductory textbook gives students the framework and tools to become great debaters and use those skills to further civil and respectful responses on contentious topics. Focusing on core concepts and skills of research reasoning and argumentation with a special focus on debate rhythms, the book builds students' ability to express ideas and respectfully dissent, ultimately improving their individual resilience in adverse circumstances and encouraging the emergence of communal values in society. *An Invitation to Debate* takes students on a step-by-step preparation of case research, speech composition, rebuttals, and resolutions. It is not specific to a particular debate style, allowing professors to use the book across a variety of procedural types, including policy, British Parliamentary, Lincoln-Douglas, International Public Debate Association, world schools, and Coolidge. As the most up-to-date debate textbook, *An Invitation to Debate* will show students how to use AI technologies to aid but never replace their own case preparation. Throughout the book, students will be challenged to consider opportunities for debate to create more civil and fruitful discussion in their daily lives and on the world stage, where respectful debate can break through political barriers and counteract social injustices.

Presidential Debates Alan Schroeder, 2008-07-03 Alan Schroeder's popular history now covers the 2000 Bush-Gore and 2004 Bush-Kerry debates, including innovations in format and press coverage, and adds new research on televised debates since 1960. Schroeder organizes his book according to a television production timeline, highlighting the importance of pre- and post-debate periods as well as the live telecasts themselves. He describes production in painstaking detail, from the selection of questioners to camera angles, from makeup to lighting and set design. Televised debates represent a rare departure from well-choreographed campaigns, and new media such as YouTube continue to reshape form and content. Conducting interviews with journalists and industry insiders and drawing on his own experience as an award-winning reporter and television producer, Schroeder delivers a fascinating backstage tour of every aspect of debate performance.

Stewart Macaulay: Selected Works David Campbell, 2020-10-30 This book represents a unique resource about Stewart Macaulay, one of the common law world's leading scholars of the law of contract and of the law in action approach to the study of law. Since 1959, he has published over 50 articles in leading journals, a number of working papers with colleagues at the University of Wisconsin Law School, a pathbreaking casebook for the teaching of the law of contract, and with other colleagues, equally pathbreaking collections of materials for the teaching of the law in action or law in context approach to the study of law. In this work, Macaulay has established himself as one of the postwar world's leading scholars of the law of contract and of the sociology of law. His work is an absolute reference point in both disciplines, and it has attracted great attention elsewhere, most notably in economic sociology, where his concept of non-contractual economic relationships is regarded as an important theoretical innovation. Macaulay's work has become an object of commentary in its own right, and the proposed book is intended to assist further such commentary by making hitherto difficult-to-obtain works readily

accessible Most of Macaulay s work is now when the leading journals are generally available in electronic form readily accessible to students and researchers in universities There are however a number of interesting and in most cases important works published in less accessible journals or works which were not published in an electronic form which are difficult to obtain This book will make them readily available and in so doing will make it possible in future for scholars to have Macaulay s complete oeuvre readily to hand Although Macaulay s work has provoked very considerable discussion there previously have been no overall accounts of that work as opposed to critical engagements with aspects of it In this book two additional essays by leading commentators give accounts of Macaulay s work and provide an introduction to exegesis of and general evaluation of Macaulay s work as a whole which is not to be found in the existing literature Disturbing Argument Catherine Palczewski, 2015-01-30 This edited volume represents the best of the scholarship presented at the 18th National Communication Association American Forensic Association Conference on Argumentation This biennial conference brings together a lively group of argumentation scholars from a range of disciplinary approaches and a variety of countries Disturbing Argument contains selected works that speak both to the disturbing prevalence of violence in the contemporary world and to the potential of argument itself to disturb the very relations of power that enable that violence Scholars essays analyze a range of argument forms including body and visual argument interpersonal and group argument argument in electoral politics public argument argument in social protest scientific and technical argument and argument and debate pedagogy Contributors study argument using a range of methodological approaches from social scientifically informed studies of interpersonal group and political argument to humanistic examinations of argument theory political discourse and social protest to creatively informed considerations of argument practices that truly disturb the boundaries of what we consider argument
