## **Is War Necessary For Economic Growth Military Procurement And Technology Development:**

*Is War Necessary for Economic Growth?* Vernon W. Ruttan, 2006 Publisher Description      **The Politics of Innovation** Mark Zachary Taylor, 2016 Why are some countries better than others at science and technology Written in accessible language The Politics of Innovation provides readers from all backgrounds with a useful survey of the innovation debate It presents extensive evidence to show that national institutions and policies do not determine innovation rates but politics do

**Project Cost Overrun** Esbjörn Segelod, 2017-11-23 This book offers a new way of thinking about the causes and consequences of cost overrun to firms and society It is ideal for academic researchers in project management management accounting and corporate finance as well as for managers in the private and public sectors      **Capitalism: An Unsustainable Future?** Malcolm Sawyer, Jonathan Michie, 2022-03-30 The four decades of neoliberalism globalisation and financialisation have produced crises financial and pandemic and rising inequality The climate emergency threatens the future of the planet This book explores many dimensions of the background to these crises There is the development of policy agendas to address the climate emergency The rise in inequality is studied in terms of impacts of financialisation and the relationships between growth and inequality The record of the neoliberal experiment in the USA is critically examined The roles of financial institutions including public banks and micro finance are explored as is the need for improved financial oversight in the Economic and Monetary Union The growth of global value chains has been a major aspect of globalisation and the question is examined of whether such chains provide a ladder for development Globalisation has also featured trade imbalances and large capital flows and their causes and effects are examined with respect to China and South Africa respectively This volume will be of great value to students scholars and professionals interested in political economy economic thought climate change sustainability and business studies The chapters in this book were originally published as a special issue of the journal International Review of Applied Economics      **Innovation for Value and Mission** Peet van Biljon, 2022-09-20 Innovation No other concept is so widely celebrated yet so secretly dreaded The reason innovation requires managing through uncertainty This is hard for any organization whether private or public small or large This book provides a roadmap for those who want to understand and manage innovation in all its aspects It explains both the how and the why of innovation its economic and policy context as well as the techniques by which it can be orchestrated along with the management systems needed to govern it Innovation is uniquely presented through both a private sector value creating and public sector mission fulfilling lens Topics covered in context include modern innovation and creativity techniques such as design thinking and the Lean Startup the organizational challenges of innovation as well as innovation project and portfolio management techniques Business model innovation and open innovation complete the picture from the manager s perspective The private and public financing of R D startups and corporate innovation are presented contrasting the private and public worlds while explaining how they complement each other Government innovation policy is discussed in its

historical and contemporary context and the innovation policy toolset is introduced Continual innovation is vital for companies and countries to prosper Readers will learn why innovation must follow technological breakthroughs to raise productivity and economic growth and how innovation when done right can benefit larger society An explanation for unequal growth that some companies regions and countries are not seeing the full productivity gains promised by modern technology is explored in the context of technology diffusion No previous experience in innovation management economics or public policy is assumed and the book moves fast to equip the reader with practical tools and techniques Innovation for Value and Mission is suitable for an introductory graduate level course or as a desk reference for experienced practitioners and policymakers Because it connects multiple topic areas and contains ample additional references the book is also a great resource for those with expertise in one particular area of innovation who desire to branch out into other areas

*Data, Security, and Trust in Smart Cities* Stan McClellan, 2024-06-26 This book provides a comprehensive perspective on issues related to the trustworthiness of information in the emerging Smart City Interrelated topics associated with the veracity of information are presented and discussed by authors with authoritative perspectives from multiple fields The focus on security veracity and trustworthiness of information data societal structure and related topics in connected cities is timely important and uniquely presented The authors cover issues related to the proliferation of disinformation and the mechanics of trust in modern society Topical issues include trust in technologies such as the use of machine learning ML and artificial intelligence AI the importance of encryption and cybersecurity and the value of protecting of critical infrastructure Structural issues include legal and governmental institutions including the basis and importance of these fundamental components of society Functional issues also include issues of societal trust related to healthcare medical practitioners and the dependence on reliability of scientific results Insightful background on the development of AI is provided and the use of this compelling technology in applications spanning networks supply chains and business practices are discussed by practitioners with direct knowledge and convincing perspective These thought provoking opinions from notable industry academia medicine law and government leaders provide substantial benefit for a variety of stakeholders

*History of Acquisition in the Dept. of Defense, Vol. II, Adapting to Flexible Response 1960-1968, 2013 ,2014* **History of Acquisition in the Department of Defense** Elliott Vanveltner Converse, 2012 *Adapting to Flexible Response, 1960-1968* Walter S. Poole, 2013 **The Belt and Road Initiative and the Global Economy** John Joshua, 2019-10-24 This two volume work provides a comprehensive overview of the Belt and Road Initiative examining its impact on economic growth trade financial systems and international relations Weaving theory with real world examples Joshua makes an important contribution to the understanding of how the Global Economy is being shaped through these developments In this second volume Joshua focuses on the operation of the international monetary system and the effects of the Belt and Road Initiative on both China s domestic economy and the Global Economy In addition this volume addresses the consequences of economic growth on the environment and

international relations      **Edith Penrose's Legacy** Jonathan Michie, Christine Oughton, 2025-01-31 Edith Penrose is best known for *The Theory of the Growth of the Firm* originally published in 1959 but she made major contributions in other fields including patents the oil industry and development economics This book explores her work and legacy not just on economics she was the founding Head of Department of Economics at SOAS University of London but also on the related fields of management and political economy where her contribution has had significant impact Penrose challenged the conventional wisdom of economics by opening up the black box view of the firm to explore what goes on inside in particular how resources are managed and renewed to influence growth and innovation Her analysis was cognisant of the wider political economy context in which firms operate recognising the different impact of large international firms on developing and developed countries Penrose's work has shaped modern theories of strategic management including the resource based view of the firm and the dynamic capabilities approach The chapters in this volume from leading economists and management scholars cover a range of topics including innovation collaboration between firms and universities and the practice and consequences of share buy backs highlighting the value of a Penrosian perspective and the extent of her legacy This book will be relevant to students and scholars of economics management and political economy This book was originally published as a special issue of *International Review of Applied Economics*      **Industrial Policy in America** Marco R. Di Tommaso, Stuart O.

Schweitzer, 2013-01-01 In contrast to what observers have frequently argued this timely and thought provoking book suggests that the concept of industrial policy is not alien to the American past and present The debate on this topic in the US has always been full of contradictory rhetoric and policy practices and the expert authors therefore acknowledge a need to rethink the traditional antagonist positions They illustrate that contemporary markets continue to demand to be fixed by government policies and governments continue to show how fixing the market policies might fail The conclusion is that the future of industrial policy is about how to make both markets and governments better in their functioning but that the real goal for industrial policy is to make better market and better government policies consistent with the goal of building a better society Affirming that it is time to break the taboo and discuss the nation's goals targets and tools to develop a new effective American industrial policy this pathbreaking book will prove a thought provoking and challenging read for students academics and policymakers with an interest in political economy and industrial policy public sector and international economics

**Handbook on the Economics of Conflict** Derek L. Braddon, Keith Hartley, 2011-01-01 The *Handbook on the Economics of Conflict* conveys how economics can contribute to the understanding of conflict in its various dimensions embracing world wars regional conflicts terrorism and the role of peacekeeping in conflict prevention The economics of conflict is a relatively new branch of the discipline of economics Conflict provides opportunities for applying game theory involving strategic behaviour interactions and interdependence between adversaries The *Handbook* demonstrates that conflict and its prevention is costly it considers new dimensions such as ethnic cleansing destructive power terrorism

corruption the impact of new technology peacekeeping the role of economists in defence ministries and the use of private contractors in conflict

The DARPA Model for Transformative Technologies: Perspectives on the U.S. Defense Advanced Research Projects Agency William Boone Bonvillian, Richard Van Atta, Patrick Windham, 2020-01-09 The authors have done a masterful job of charting the important story of DARPA one of the key catalysts of technological innovation in US recent history By plotting the development achievements and structure of the leading world agency of this kind this book stimulates new thinking in the field of technological innovation with bearing on how to respond to climate change pandemics cyber security and other global problems of our time The DARPA Model provides a useful guide for governmental agency and policy leaders and for anybody interested in the role of governments in technological innovation Dr Kent Hughes Woodrow Wilson International Center for Scholars This volume contains a remarkable collection of extremely insightful articles on the world's most successful advanced technology agency Drafted by the leading US experts on DARPA it provides a variety of perspectives that in turn benefit from being presented together in a comprehensive volume It reviews DARPA's unique role in the US innovation system as well as the challenges DARPA and its clones face today As the American model is being considered for adoption by a number of countries worldwide this book makes a welcome and timely contribution to the policy dialogue on the role played by governments in stimulating technological innovation Prof Charles Wessner Georgetown University The US Defense Advanced Research Projects Agency DARPA has played a remarkable role in the creation new transformative technologies revolutionizing defense with drones and precision guided munitions and transforming civilian life with portable GPS receivers voice recognition software self driving cars unmanned aerial vehicles and most famously the ARPANET and its successor the Internet Other parts of the US Government and some foreign governments have tried to apply the DARPA model to help develop valuable new technologies But how and why has DARPA succeeded Which features of its operation and environment contribute to this success And what lessons does its experience offer for other US agencies and other governments that want to develop and demonstrate their own transformative technologies This book is a remarkable collection of leading academic research on DARPA from a wide range of perspectives combining to chart an important story from the Agency's founding in the wake of Sputnik to the current attempts to adapt it to use by other federal agencies Informative and insightful this guide is essential reading for political and policy leaders as well as researchers and students interested in understanding the success of this agency and the lessons it offers to others

**From Physics to Daily Life** Beatrice Bressan, 2014-08-18 Beatrice Bressan brings together a number of outstanding examples of successful cross disciplinary technology transfer originating in fundamental physics research which dramatically impacted progress in biomedical research and clinical applications Many of these examples were developed at CERN a hotbed of fundamental inventions in particle physics Additional sections of the book deal with knowledge management and technology transfer including its economic aspects While each chapter has been drafted by an expert in the field the editor has carefully edited

the whole book ensuring a coherent overall structure A must have for policy makers technology companies investors strategic planners in research and technology as well as attractive reading for the research community *Exploring the Sociology of Europe* Maurice Roche,2010 This is a discerning and relevant book providing an informed analysis of European society which identifies and defines contemporary issues and engages with key social theoretical perspectives Covering the substantive historical sociological aspects of Europe Part 1 the historical and comparative sociology of the nation state Part 2 and the comparative sociology of welfare capitalism Part 3 Maurice Roche sets out a clear and effective framework for understanding the sociology of Europe **Failure to Adjust** Edward Alden,2017-09-15 Americans know that something has gone wrong in this country s effort to prosper in the face of growing global economic competition The vast benefits promised by the supporters of globalization and by their own government have never materialized for most Americans This book is the story of what went wrong and how to correct the course It is a compelling history of the last four decades of US economic and trade policies that have left Americans unable to adapt to or compete in the current global marketplace Failure to Adjust argues that despite the deep partisan divisions over how best to respond to America s competitive challenges there is achievable common ground on such issues as fostering innovation overhauling tax rules to encourage investment in the United States boosting graduation rates investing in infrastructure and streamlining regulations The federal government needs to become more like U S state governments in embracing economic competitiveness as a central function of government The book presents an especially timely analysis of the trade policies of the Obama administration and discusses how America can reassert itself as the leader in setting rules for international economic competition that would spread the benefits of global trade and investment more broadly **Advanced Manufacturing** William B. Bonvillian,Peter L. Singer,2023-12-05 How to rethink innovation and revitalize America s declining manufacturing sector by encouraging advanced manufacturing bringing innovative technologies into the production process The United States lost almost one third of its manufacturing jobs between 2000 and 2010 As higher paying manufacturing jobs are replaced by lower paying service jobs income inequality has been approaching third world levels In particular between 1990 and 2013 the median income of men without high school diplomas fell by an astonishing 20% between 1990 and 2013 and that of men with high school diplomas or some college fell by a painful 13% Innovation has been left largely to software and IT startups and increasingly U S firms operate on a system of innovate here produce there leaving the manufacturing sector behind In this book William Bonvillian and Peter Singer explore how to rethink innovation and revitalize America s declining manufacturing sector They argue that advanced manufacturing which employs such innovative technologies as 3 D printing advanced material photonics and robotics in the production process is the key Bonvillian and Singer discuss transformative new production paradigms that could drive up efficiency and drive down costs describe the new processes and business models that must accompany them and explore alternative funding methods for startups that must manufacture They examine the

varied attitudes of mainstream economics toward manufacturing the post Great Recession policy focus on advanced manufacturing and lessons from the new advanced manufacturing institutes They consider the problem of startup scaleup possible new models for training workers and the role of manufacturing in addressing secular stagnation in innovation growth the middle classes productivity rates and related investment As recent political turmoil shows the stakes could not be higher

**Climate Crisis and the Global Green New Deal** Noam Chomsky, Robert Pollin, 2020-09-22 An engaging conversation with Noam Chomsky revered public intellectual and Manufacturing Consent author about climate change capitalism and how a global Green New Deal can save the planet In this compelling new book Noam Chomsky the world s leading public intellectual and Robert Pollin a renowned progressive economist map out the catastrophic consequences of unchecked climate change and present a realistic blueprint for change the Green New Deal Together Chomsky and Pollin show how the forecasts for a hotter planet strain the imagination vast stretches of the Earth will become uninhabitable plagued by extreme weather drought rising seas and crop failure Arguing against the misplaced fear of economic disaster and unemployment arising from the transition to a green economy they show how this bogus concern encourages climate denialism Humanity must stop burning fossil fuels within the next thirty years and do so in a way that improves living standards and opportunities for working people This is the goal of the Green New Deal and as the authors make clear it is entirely feasible Climate change is an emergency that cannot be ignored This book shows how it can be overcome both politically and economically

*The Oxford Handbook of Local Competitiveness* David B. Audretsch, Albert N. Link, Mary Lindenstein Walshok, 2015 An analysis of what influences and shapes local competitiveness and what places can do to enhance their economic performance
