

FIGURE 14.12

Block diagram to be completed for Problem 3.

- (5) Label the hanging wall and footwall on the top and side faces.
 - (6) With Side 1 up, number the beds in order of age, with 1 the oldest. Are the beds at the surface of the upthrown block generally older or younger than those at the surface of the downthrown block? Why?
 - (7) What kind of fault is this?
3. Figure 14.12 is a block diagram showing a fault and a number of folds. The front face of this diagram is perpendicular to the strike of these features, so you can easily measure the dip of the fault and bedding planes where indicated. North is into the page, west and east are marked.
- a. Use a protractor to measure the dip angles along a single fold at points 1 through 5 on the front face of the diagram. Horizontal lines indicate the precise location for each measurement.

1.	2.	3.	4.	5.
----	----	----	----	----
 - b. A geologist would take strike and dip measurements at convenient outcrops on the surface. Take dip measurements along the front of the block diagram, as close to the surface as possible. Put the appropriate strike and dip symbols in the six white ovals along the top of the diagram, and write each dip measurement in the appropriate spot.
 - c. Draw dashed axial traces for the three folds not cut by a fault. Put them along both the vertical and horizontal surface, and include the appropriate symbol from Figure 14.4.
 - d. What type of fault is illustrated? Be sure the correct map symbol is used to indicate dip. Put arrows on the vertical surface and map symbols on the horizontal surface to indicate the relative sense of motion across the fault.
4. Partially completed block diagrams are shown in Figure 14.13. Using the information provided for each diagram, fill in the blank faces on the blocks and answer the questions.
- a. The vertical column on the front face of Figure 14.13A shows the different rock units encountered in an old oil well.
 - (1) Use the available information to help you complete the diagram.
 - (2) What kind of fold is this (anticline, syncline; upright, inclined, overturned, or recumbent; plunging or non-plunging)?
 - (3) Illustrate the position of the axial surface of the fold by sketching its trace on the top and end of the block. (The trace is the imaginary line formed where the axial surface intersects another surface).

Lab Manual Answer Physical Geology

JS Bruner

Lab Manual Answer Physical Geology:

Laboratory Manual in Physical Geology American Geological Institute, 2000 For majors and non majors in undergraduate lab courses for Introductory Geology and Physical Geology The best selling lab manual for undergraduate lab courses in Physical Geology or Introductory Geology for majors and non majors With contributions from more than 120 highly regarded geologists and geoscience educators and an exceptional illustration program by Dennis Tasa this user friendly laboratory manual focuses students on the basic principles of geology and their applications to everyday life in terms of natural resources natural hazards and human risks This edition pushes the frontiers of geologic education even further with the inclusion of four new computer based labs **Laboratory Manual for Physical Geology** Walter Henry Schoewe, 1928

A Laboratory Manual of Dynamic and Structural Geology Kirtley Fletcher Mather, Ralph Gordon Lusk, 1929

Laboratory Exercises in Physical Geology William C. Putnam, Robert W. Webb, 1958

Study Guide for Physical Geology, Geo 1001 (T451-W485) Robert Evan Sloan, E. C. Alexander (Jr.), 1985 Physical Geology R. D.

Dallmeyer, 1999-08 **Laboratory Manual in Physical Geology** Richard M. Busch, 1993 Lab manual placing great emphasis on student understanding of the earth as a complex evolving system having interacting processes and cycles of change designed for the introductory course lab component in physical geology Practical consistent exercise format concise background information 15 exercises and full color illustrations *Physical Geology Laboratory Manual* John Becker Lucke, Janet Mora Aitken, 1963 *Laboratory Manual for Physical Geology* Norris W. Jones, Charles E. Jones, 2005 If it is important for you to incorporate the scientific method into your teaching this lab manual is the perfect fit In every exercise there are scientific method boxes that provide students with insight into the relevance of the scientific method to the topic at hand The manual also includes In Greater Depth problems a more challenging probe into certain issues They are more quantitative in nature and require more in depth critical thinking which is unique to this type of manual Practical Physical Geology John A. Ciciarelli, 1986 First Published in 1986 Routledge is an imprint of Taylor Francis an informa company **Laboratory Exercises in Physical Geology** Allan Ludman, 1993 Designed to help students gain a conceptual understanding through hands on experience this text uses an informal tone to invoke student interest and curiosity Features include hands on labs requiring only common inexpensive materials such as string glass jars and clay and a summary exercise Putting it All Together which challenges students to synthesize what they have learnt in previous chapters

Field, Laboratory, and Library Manual in Physical Geography Cary Thomas Wright, 1906 **Geological Survey Bulletin**, 1973 *Abstracts of North American Geology* Geological Survey (U.S.), 1970-07 **Laboratory Manual for Physical Geology** James Herbert Zumberge, Robert Hoxie Rutford, 1991 This laboratory manual is written for the freshman level laboratory course in physical geology In this lab students study Earth materials geologic interpretation of topographic maps aerial photographs and Earth satellite imagery structural geology and plate tectonics and related phenomena With

nearly 30 exercises professors have great flexibility when developing the syllabus for their physical geology lab course The ease of use tremendous selection and tried and true nature of the labs selected have made this lab manual one of the leading selling physical geology lab manuals **Catalog of Copyright Entries.
