Family Tips Guide – Internet Safety

Help Kids Stay Safe and Secure Online!

As kids begin exploring the internet, they encounter a digital world full of learning opportunities and fun experiences. However, it's crucial for them to understand how to protect their privacy, maintain security, and use technology safely. By following simple guidelines and learning together, families can empower kids to confidently navigate online spaces. This guide provides five actionable tips for boosting kids' safety, privacy, and security online, along with a bonus tip to help you effectively use this guide at home.

Tip #1: Have Conversations about Personal vs. Private Information

- Help kids understand what's acceptable to share online (like a favorite food, song, or hobby) and what's not (like their home address or school name).
- Try This: Visit PBS Kids to explore what's safe to share online
- https://www.pbskids.org/fetch/ruff/staying-safe/privacy-guide.html

Tip #2: Avoid Location Tracking

- While some apps use tracking for convenience, it's best to disable location-based features in most cases. Location tracking can be used to expose personal information or details about where you are or where you go.
- Try This: Turn off location tracking for apps or devices that don't need it.

Tip #3: Investigate Privacy Settings on Internet Connected Devices.

- Review the privacy settings on apps and games together. Make sure you know what information is being shared and limit it to only what's necessary.
- Try This: Visit Google's Safety Center to learn about safely navigating the internet.
- https://safety.google

Tip #4: Identify and Ignore Clickbait

- Help kids recognize and avoid online quizzes, clickbait, and anything that requests unnecessary personal information. Protecting privacy and online security is essential.
- Try This: Visit Cyberwise to learn how to spot fake news and online traps.
- https://www.cyberwise.org

Tip #5: Review and Update Passwords

- Help create strong, unique passwords that combine phrases, numbers, and special characters. Teach them to keep passwords private and update them regularly.
- Try This: Test the strength of passwords using How Secure is My Password?
- https://www.security.org/how-secure-is-my-password

Tip #6: Taking the Next Step

- Post these tips in a visible place at home.
- Revisit these tips whenever you use a new app, website, or device.
- Spend a few minutes each day talking about new websites and apps you've been using. Consider and discuss if they respect your privacy and security.
