media images and archival and ethnographic research Cox Hall considers how elite European descended women and the urban home were central to Peru's modernizing project and finds that all women who labored within the deeply racialized and gendered world of food helped set the stage for a Peruvian food nationalism that is now global in the twenty first century Cox Hall skillfully connects how the sometimes unsavory tastes of the past are served again in today's profitable and pervasive gastronostalgia that helps sell Peru and its cuisine both at home and abroad *Nuestra arquitectura* ,1929
