The Cristos yacentes of Gregorio Fern?ez Ilenia Col?n Mendoza, 2017-07-05 Analyzing seventeenth century images of the dead Christ produced by Gregorio Fern ez author Ilenia Col endoza investigates how and why the artist and his

patrons manipulated these images in connection with the religious literature of the time to produce striking images that moved the faithful to devotion In so doing she contributes new findings to the topic of Spanish sacred sculpture The author re examines these sculptures not only in the context of a larger sculptural group but also as independent sculptures that were intended as powerful aids to contemplation and devotion as was prescribed by the writings of San Juan de la Cruz and Luis de Granada Combining study of the sculptural works with that of liturgical sources she reveals the connection between the written word and the sculpted work of art Through this interdisciplinary approach the author links Fern ez s sculptural program with the strategic objectives of major patrons of the period such as the Duke of Lerma and King Philip III of Spain both fervent defenders of the Catholic faith Pasión de nuestro señor Jesucristo Felipe Fernández Ramos,2007 Pasión y muerte de N.S.
