

La Esperança

2

Georges is more than trusting – he's genuine and kind to everyone that crosses his path, including the new boy Chris. Unfortunately, the "inspirational" charm that he seems to have may actually be a disguise for a much darker secret lurking beneath the surface. Is Chris just trying to use the innocent boy for his own dirty schemes? Everyone looks to Georges to know where they stand...and others have secret desires and wishes that they've never revealed. True inspiration can be hard to find when your trust is betrayed...and true love may be nothing but a dream when all hope is lost.

La Esperança is a whirlwind ride fueled by young passions and fast alliances. Some allegiances have existed for a lifetime, but jealousies flare up with even the closest of friends when new faces enter the prep scene. Who's on top? Who truly rules the school? Sometimes a lesson in love proves to be the hardest test that life has to offer!

The Inner Sea Josiah Blackmore, 2022-09-07 An expansive consideration of how nautical themes influenced literature in early modern Portugal In this book Josiah Blackmore considers how the sea and seafaring shaped literary creativity in early modern Portugal during the most active consequential decades of European overseas expansion Blackmore understands literary in a broad sense including a diverse archive spanning genres and disciplines epic and lyric poetry historical chronicles nautical documents ship logs shipwreck narratives geographic descriptions and reference to texts of other seafaring powers and literatures of the period centering on the great Luís de Camões arguably the sea poet par excellence of early modern Europe Blackmore shows that the sea and nautical travel for Camões and his contemporaries were not merely historical realities they were also principles of cultural creativity that connected to larger debates in the widening field of the maritime humanities For Blackmore the sea ships and nautical travel unfold into a variety of symbolic dimensions and the oceans across the globe that were traversed in the fifteenth and sixteenth centuries correspond to vast reaches within the literary self The sea and seafaring were not merely themes in textual culture but were also principles that created individual and collective subjects according to oceanic modes of perception Blackmore concludes with a discussion of depth and sinking in shipwreck narratives as metaphoric and discursive dimensions of the maritime subject foreshadowing empire's decline
