principal stereotypes of the traditional historiography of both left and right *A History of Ecology and Environmentalism in Spanish American Literature* Scott M. DeVries, 2013-09-05 A History of Ecology and Environmentalism in Spanish American Literature undertakes a comprehensive ecocritical examination of the region's literature from the foundational texts of the nineteenth century to the most recent fiction The book begins with a consideration of the way in which Argentine Domingo Faustino Sarmiento's views of nature through the lens of the categories of civilization and barbarity from Facundo 1845 are systematically challenged and revised in the rest of the century Subsequently this book develops the argument that a vital part of the cultural critique and aesthetic innovations of Spanish American modernismo involve an ecological challenge to deepening discourses of untamed development from Europe and the United States In other chapters many of the well established titles of regional and indigenista literature are contrasted to counter traditions within those genres that express aspects of environmental justice deep ecology the relational role of emotion in nature protectionism and conservationism even the rights of non human nature Finally the concluding chapters find that the articulation of ecological advocacy in recent fiction is both more explicit than what came before but also impacts the formal elements of literature in unique ways Textual conventions such as language imagery focalization narrative sequence metafiction satire and parody represent innovations of form that proceed directly from the ethical advocacy of environmentalism The book concludes with comments about what must follow as a result of the analysis including the revision of canon the development of literary criticism from novel approaches such as critical animal studies and the advent of a critical dialogue within the bounds of Spanish American environmentalist literature A History of Ecology and Environmentalism in Spanish American Literature attempts to develop a sense of the way in which ecological ideas have developed over time in the literature particularly the way in which many Spanish American texts anticipate several of the ecological discourses that have recently become so central to global culture current environmentalist thought and the future of humankind **The Cambridge History of Spanish Literature** David T. Gies, 2004 Publisher Description Britain and the Spanish Anti-Franco Opposition D. Dunthorn, 2000-10-06 After fascism's defeat in 1945 Britain did not cooperate with Franco's Spanish opponents to end his dictatorship This study demonstrates how divisions in the Spanish opposition were one factor but argues that Britain's strategic and commercial interests in Spain also acted as a disincentive Only when international pressure for sanctions threatened Iberian stability in 1947 did the British government turn to the Spanish opposition With the advent of the Cold War however the opposition became irrelevant to British needs and Franco's survival was guaranteed **The Routledge Handbook of Spanish Translation Studies** Roberto Valdeón, África Vidal, 2019-05-28 Written by leading experts in the area The Routledge Handbook of Spanish Translation Studies brings together original contributions representing a culmination of the extensive research to date within the field of Spanish Translation Studies The Handbook covers a variety of translation related issues both theoretical and practical providing an overview of the field and establishing directions for future research It starts by looking at the history
