Beowulf J. R. R. Tolkien, 2015-10-15 La traducción de Beowulf de J. R. R. Tolkien acabada en 1926 fue un trabajo temprano de carácter muy peculiar Sin embargo contiene elementos que después Tolkien usó en sus obras de la Tierra Media como el dragón que presagia al Smaug de El Hobbit A partir de la atención que Tolkien presta al detalle se hace patente el sentido de la inmediatez y claridad de su visión Es como si entrara en el pasado imaginado y se irguiera junto a Beowulf y sus hombres cuando sacuden sus cotas de malla al asegurar su nave en la playa de la costa de Dinamarca

escuchara la creciente c lera de Beowulf por las provocaciones de Unferth o mirara con asombro la terrible mano de Grendel colgada del techo de Heorot

Beowulf Michael Swanton, 1978 Beowulf is to English what the Odyssey and Iliad are to Greek literature the oldest example of vernacular literature of any substance not only in England but in the whole of western Europe Since its rediscovery and the appearance of the first printed editions in the middle of the last century this moving and dramatic epic has attracted considerable scholarly attention and Dr Swanton is able to draw on this wealth of scholarship to present a considered and balanced introduction to the poem Explanatory notes drawing on archaeological sources expand the poet s more esoteric allusions and offer background information on contemporary manners and customs A prose translation faces the text which should be invaluable to both students and the general reader
