Patterns of Violence Behind the Lines in Europe's Civil Wars Francisco J. Leira-Castiñeira, John Sakkas, 2025-09-30 This edited collection examines the violence experienced by non combatants during the civil wars which took place in Europe in the first half of the twentieth century The determinants of violence in civil wars are highly complex and variable By focusing on both the victims and perpetrators of violence in eight European countries including Russia Ireland France and Spain the book explores what happened when differing groups within a polity clashed and in which ways internal conflicts manifested themselves and permeated societies Divided into two parts the chapters firstly identify and analyse how rearguard violence was produced and exercised during the European civil wars and secondly they examine the violence perpetrated by and against women Shedding light on the violence that was inflicted upon European civilians in the early to mid twentieth century this book presents insights for historians of Europe political scientists and international relations scholars alike **Paris at War** David Drake, 2015-11-16 David Drake chronicles the lives of ordinary Parisians during WWII drawing on diaries and reminiscences of people who endured these years From his account emerge the broad rhythms and shifting moods of the city and the contingent lives of resisters collaborators occupiers and victims who unlike us could not know how the story would end **The Survival of the Jews in France, 1940-44** Jacques Semelin, 2018-12-01 Between the French defeat in 1940 and liberation in 1944 the Nazis killed almost 80 000 of France s Jews both French and foreign Since that time this tragedy has been well documented But there are other stories hidden within it ones neglected by historians In

fact 75% of France's Jews escaped the extermination while 45% of the Jews of Belgium perished and in the Netherlands only 20% survived. The Nazis were determined to destroy the Jews across Europe and the Vichy regime collaborated in their deportation from France. So what is the meaning of this French exception? Jacques Semelin sheds light on this French enigma painting a radically unfamiliar view of occupied France. His is a rich even handed portrait of a complex and changing society one where helping and informing one's neighbours went hand in hand and where small gestures of solidarity sat comfortably with anti-Semitism. Without shying away from the horror of the Holocaust's crimes this seminal work adds a fresh perspective to our history of the Second World War. *Histories of Women's Work in Global Sport* Georgia

Cervin, Claire Nicolas, 2019-11-29 Sport has never been a man's world. As this volume shows women have served key roles not only as athletes and spectators but as administrators, workers, decision makers and leaders in sporting organizations around the world. Contributors excavate scarce archival material to uncover histories of women's work in sport from swimming teachers in nineteenth century England to national sports administrators in twentieth century Cote d'Ivoire and many places in between. Their work has been varied holding roles as teachers, wives and secretaries in sporting contexts around the world often with diplomatic functions including at the 1968 and 1992 Olympic Games. Finally this collection shows how gender initiatives have developed in sporting institutions in Europe and international sport federations today. With a foreword by Gregory Quin and afterword by Ana's Bohuon this is a pioneering study into gender and women's work in global sport.

Coping with Hunger and Shortage under German Occupation in World War II Tatjana Tönsmeier, Peter Haslinger, Agnes Laba, 2018-06-22 This volume demonstrates how German expansion in the Second World War II led to shortages of food and other necessities including medicine for the occupied populations causing many to die from severe hunger or starvation. While the various chapters look at a range of topics the main focus is on the experiences of ordinary people under occupation, their everyday life and how this quickly became dominated by the search for supplies and different strategies to fight scarcity. The book discusses various such strategies for surviving increasingly catastrophic circumstances ranging from how people dealt with rationing systems to the use of substitute products and recycling, barter, black marketeering and smuggling and even survival prostitution. In addressing examples from Norway to Greece and from France to Russia this volume offers the first pan-European perspective on the history of shortage, malnutrition and hunger resulting from the war, occupation and aggressive German exploitation policies. *Vichy France and the Jews* Michael R

Marrus, Robert O Paxton, 2023-05-25 An updated edition with decades worth of new archival material. It remains the classic text on the Holocaust in France. *Holocaust and Genocide Studies: When Vichy France and the Jews* was first published in France in 1981 the reaction was explosive. Before the appearance of this groundbreaking book the question of the Vichy regime's cooperation with the Third Reich had been suppressed. Michael R Marrus and Robert O Paxton were the first to access closed archives that revealed the extent of Vichy's complicity in the Nazi effort to eliminate the Jews. Since the book's

original publication additional archives have been opened and the role of the French state in the deportation of Jews to the Nazi death factories is now openly acknowledged This new edition integrates over thirty years of subsequent scholarship and incorporates research on French public opinion and the diversity of responses by French civilians to the campaign of persecution they witnessed around them This classic account remains central to the historiography of France and the Holocaust and in its revised edition is more important than ever for understanding the Vichy government's role in the darkest atrocity of the twentieth century

occupant En s'attaquant la vie quotidienne des Français pendant cette période Michel Cointet revient sur des sujets qui d'abord rangent le taux de natalité, le argent sale acquis par certains, les rivalités entre maquis qui ont pu engendrer des représailles dramatiques, le traumatisme toujours présent de villes et de villages détruits par les bombardements alliés ou encore le retour d'Allemagne des prisonniers de guerre français à l'aune de nouvelles interrogations. Michel Cointet livre les secrets et les mystères de cette histoire qui fut celle de millions de vaincus mais aussi de Pétain, de De Gaulle, de Moulin, de D-Day et de beaucoup d'autres présents dans ce livre.

Maurrassisme et littérature Michel Leymarie, Jacques Prévotat, Olivier Dard, 2012-10-31 Les rapports entre nationalisme, littérature et plus généralement esthétique sont au cœur des contributions de ce volume. Celui-ci est le quatrième de la série L'Action française Culture sociétale politique qui se propose de prendre au-delà de *The Pleasures of Crime* David Platten, 2011-12. For 150 years the French public and literati have enjoyed a love affair with crime fiction. This book investigates the nature of this relationship and how through periods of dramatic social and political change in France it has flourished. It challenges the conventional view of a popular genre feeding a niche market depicting crime fiction instead as a field of creative endeavour which has gradually matured into one of considerable literary fertility. By inviting us to share secrets and crack codes, creating suspense and at times not shirking from presenting horrific events in graphic language, the crime story brings into play the intellect and emotions of its readership. This book explores both this intrinsic literary value of the crime novel and its extrinsic witness to historical events and cultural trends, arguing that these apparently distinct aspects are in fact dynamic interrelated parts of the same whole. This blend of cultural history with literary analysis allows for the discussion of themes such as politics, memory, the urban environment and youth cultures, mixed with case studies of major French crime writers including Gaston Leroux, Georges Simenon, Jean-Patrick Manchette, Daniel Pennac and Fred Vargas.
